In September, 1953, our ship set sail, opening its doors and allowing the many young people that populated this school to enter.

We started our first year at sea without some of the things that we students may take for granted now. Grass and trees were almost non-existent in the first years, not to mention all the new buildings and athletic fields.

Honored in this issue will be many of our clubs, activities and athletic events. You will also see some of the school's popular personalities of the past and present.

Since 1953, our ship has sprung many leaks, but thanks to our hard working crew, most of them have been repaired. We hope that as you flip through the pages of this years book you will see that we have come a long way.

We are proud to say that we have become the best sailing vessel on the seven seas.

(Now we even have grass!)

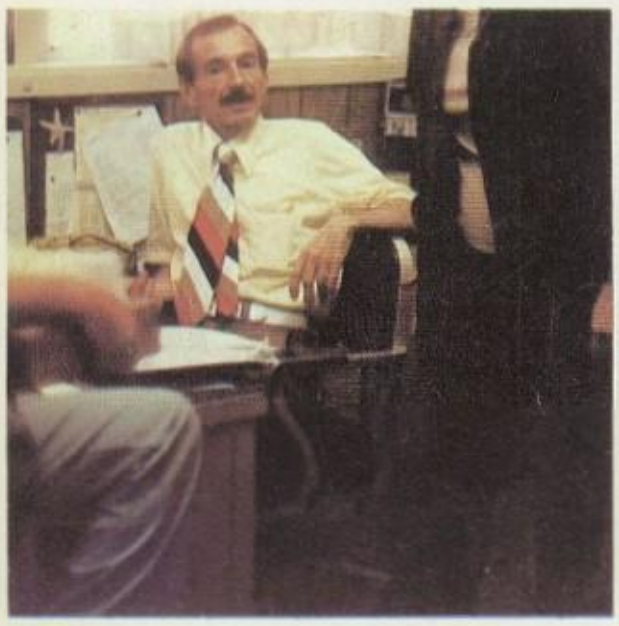
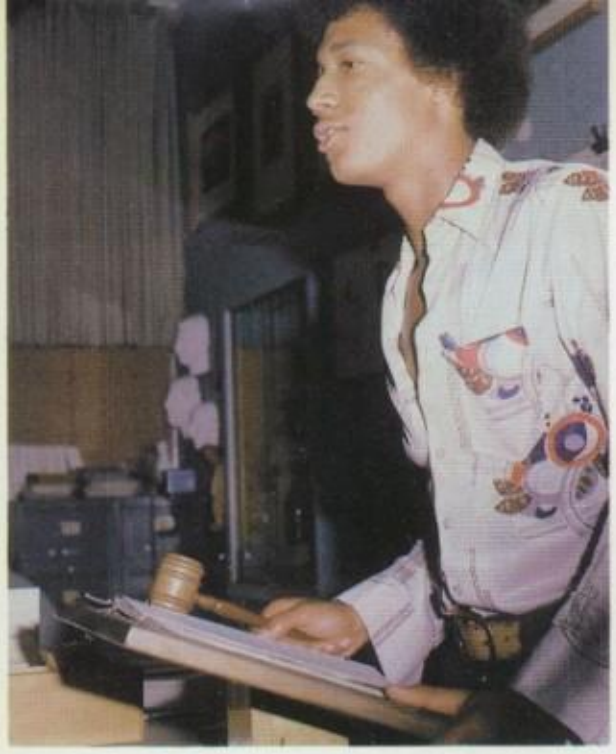
The belief that all teachers do is scribble words and numbers on the blackboard, grade papers, and gossip in the teachers workroom are all fantasies. Duties ranged from taking tickets at the athletic events, to keeping non-paying students out of the dances. Even the eight teachers that have been at Pacific since the school first opened in 1953, engaged themselves in duties that required out of class work. The teacher proved to be the second most important group on our campus. Why second? If it weren't for the students, for whom would the teachers have performed their gracious duties?



Everyone Wished To Be A Senior
Seniors Wished Only To Survive



Studying for the SAT, ACT, and other college entrance exams, coupled with trips to the counselor's office to check on the lastest scholarship opening, made the seniors a unanimous choice for the busiest students on campus.

Being a senior meant being tired, fatigued, exhausted and out of breath; but in the end it was worth it.

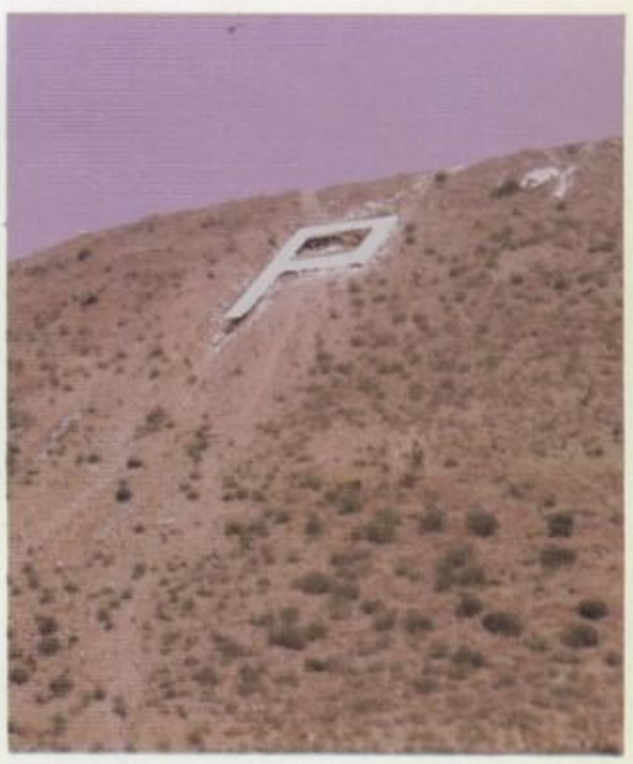
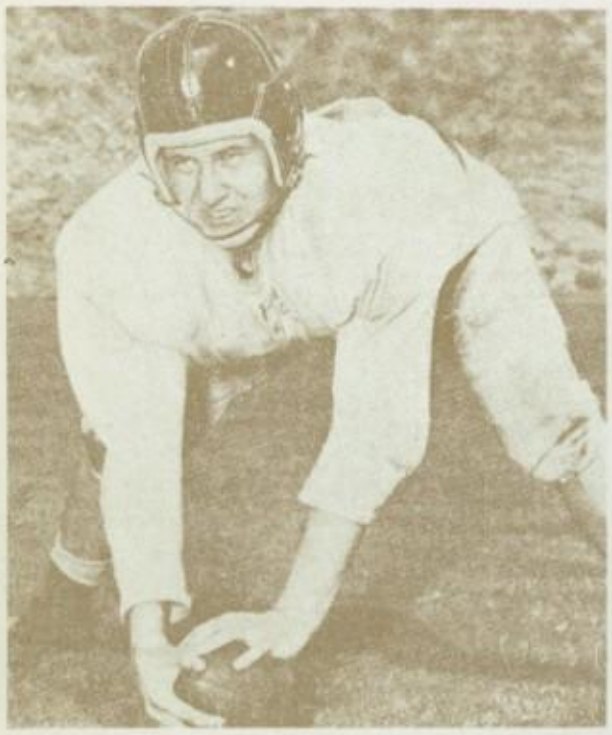
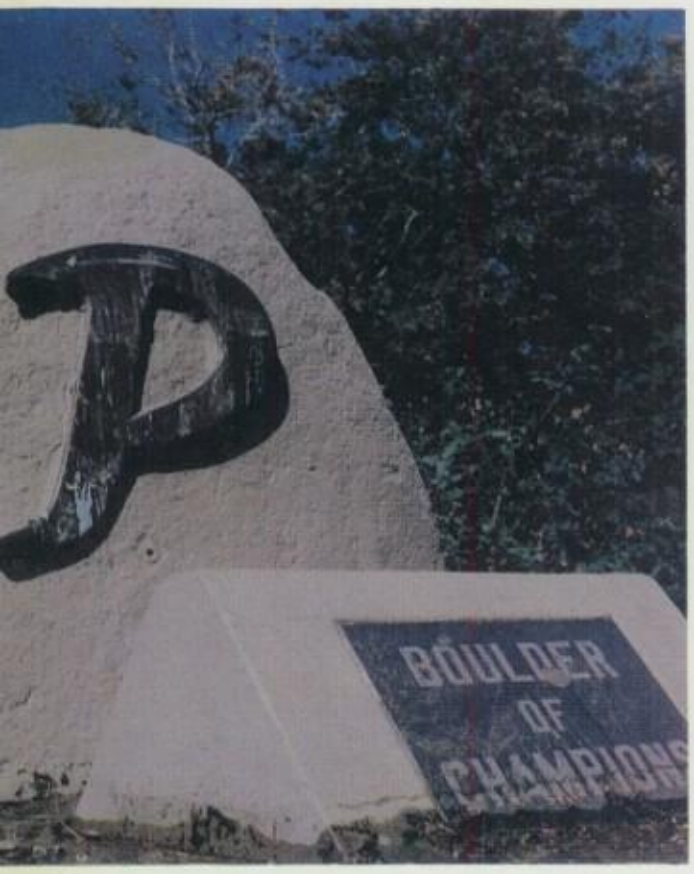
Striving to be at the top is the main goal for a lot of the students of Pacific. With only one 'B,' it could shatter a dream that's been stored up in the back of a mind for a lifetime. We have come a long way since '53; having to obtain only 200 credits. With the way Pacific was moving along this year, it wouldn't be at all surprising to see a future President in the crowd.

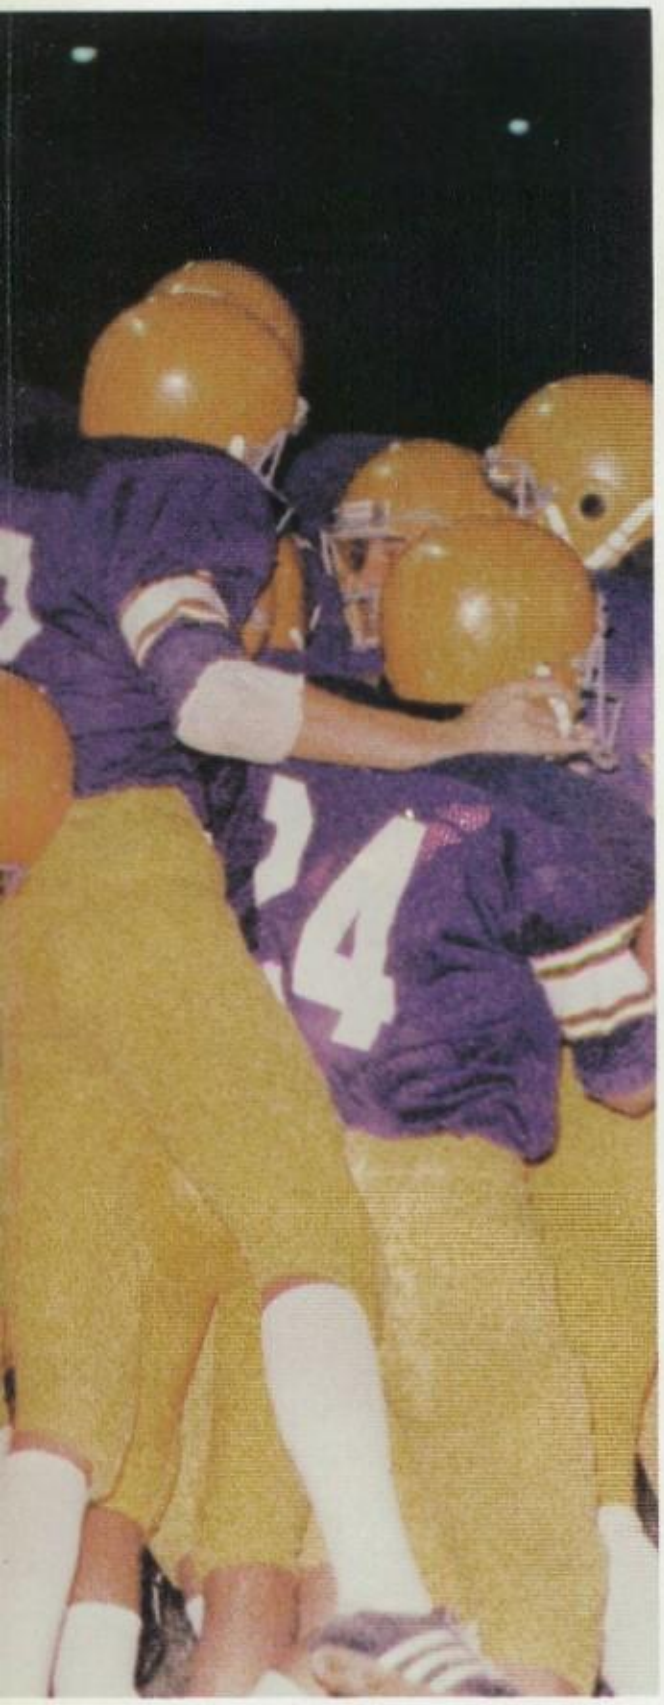


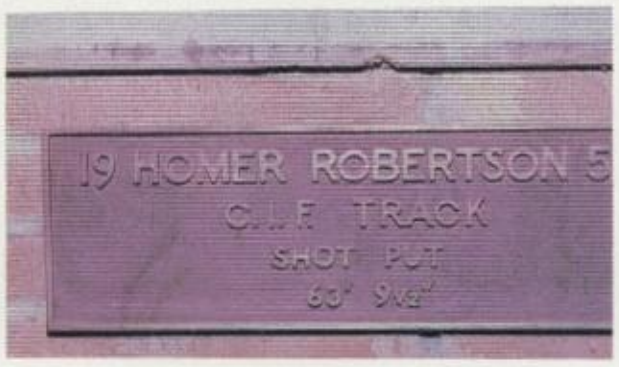
They Got The Bumps, The Pain,



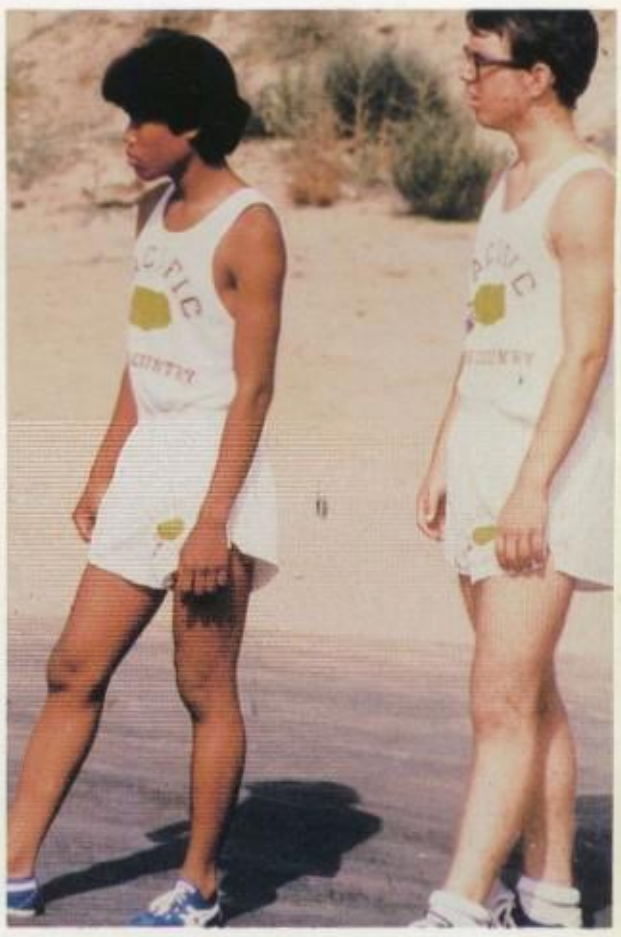


And The Glory





On September 25, 1953 Pacific made its athletic debut. The sport was football, and the opposition was Palm Springs. The game ended in a scoreless tie. Since 1953, many more gates to athletic achievement have been opened at Pacific. Throughout the year, Pacific provided many types of athletic competition. Football players got dirty, basketball players got sweaty, swimmers got wet, volleyball players got sore hands, and gymnasts got dizzy. Variety in sports made the athlete at Pacific a recognized provider of action and excitement.



To a nice girl that I met in 6th grade. Hope to see ya in the future.

Danny

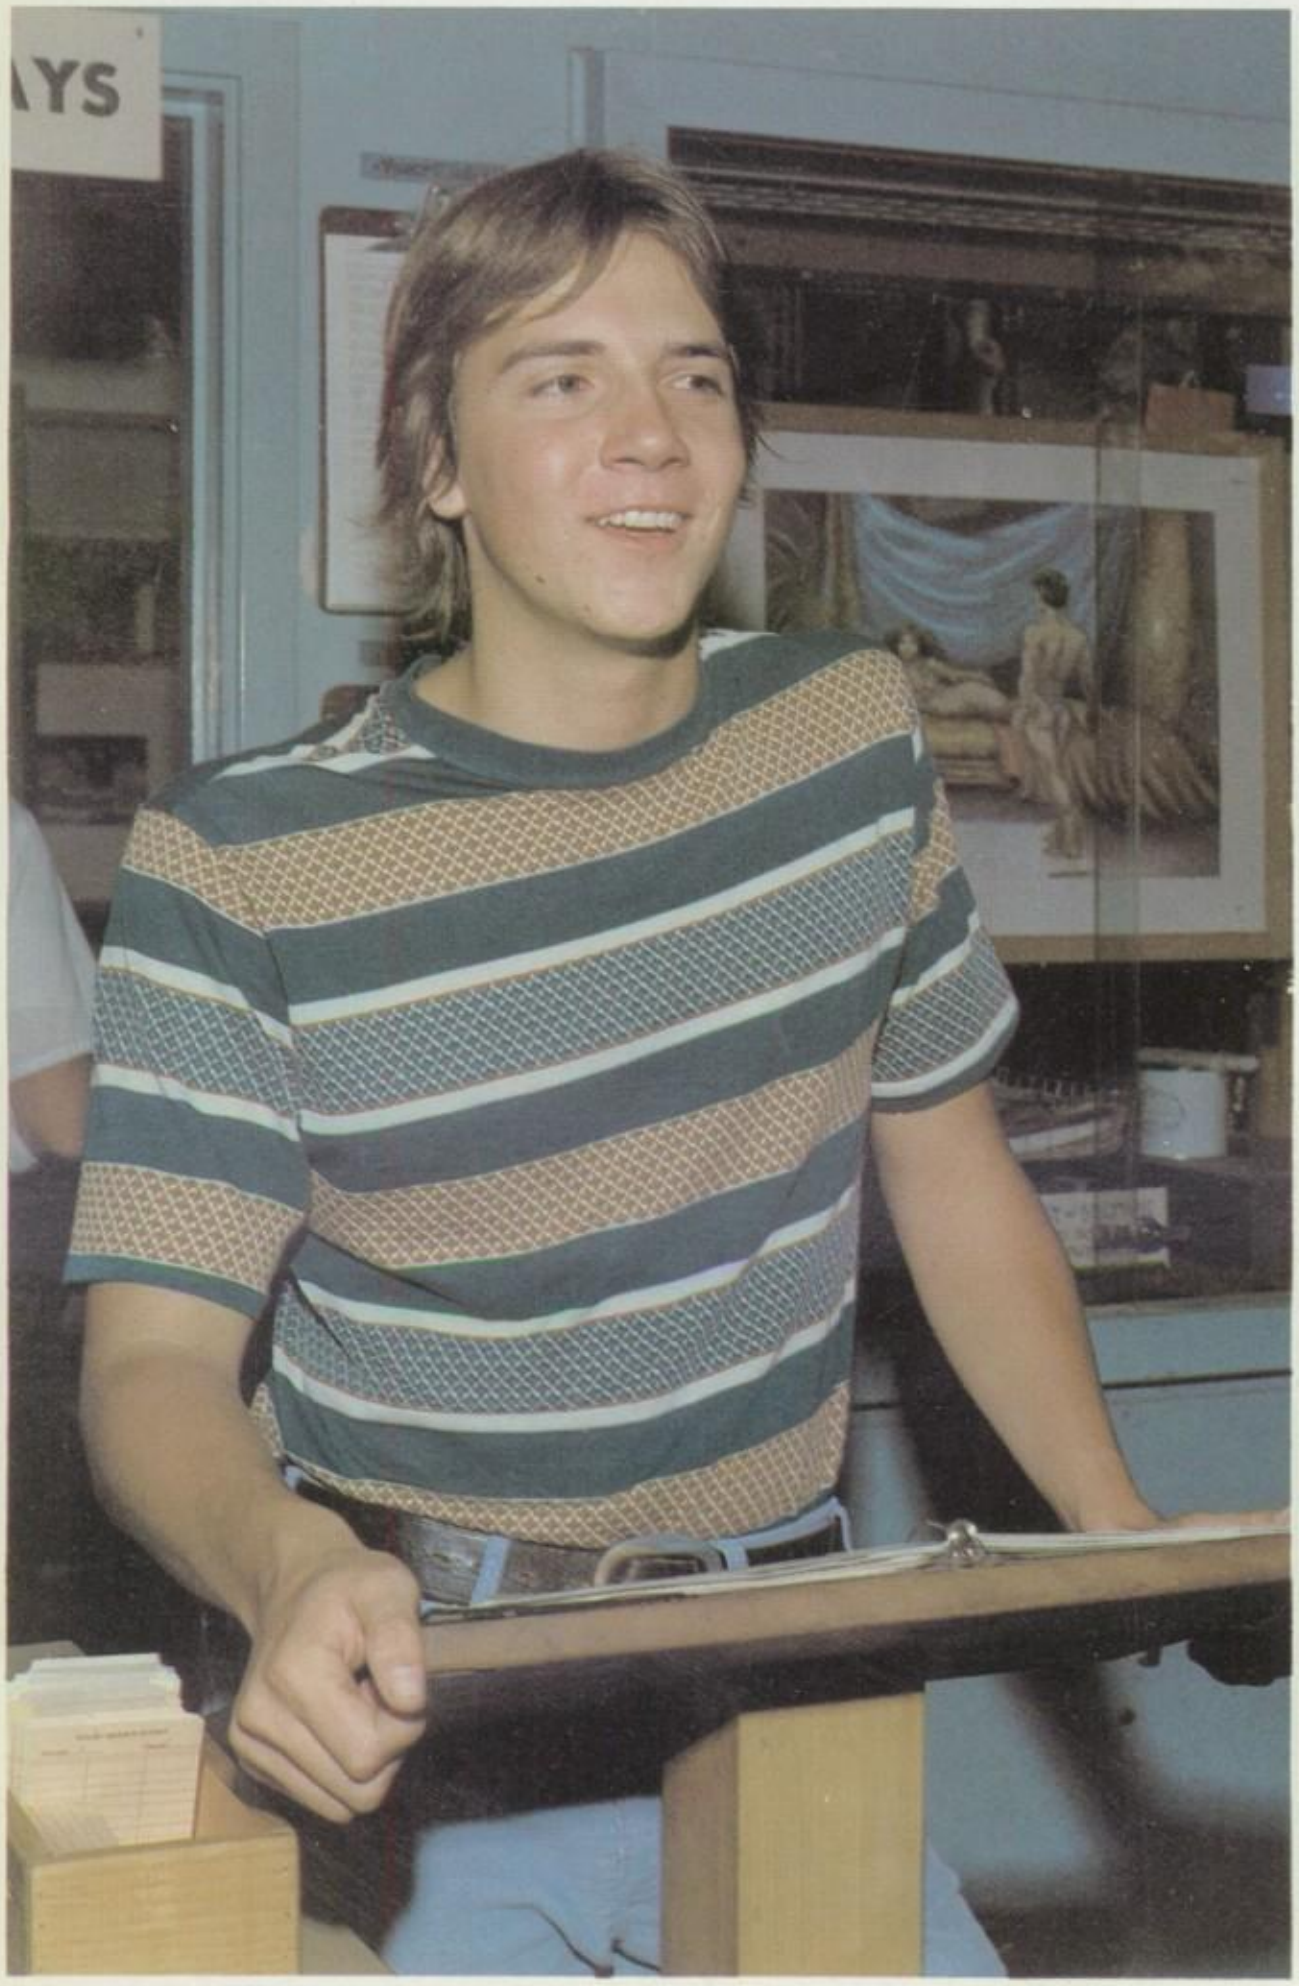
When Pacific first opened in 1953, activities ranged from coolest car on campus to watermelon feeds to boot races. In the 1977-78 school year, the coolest car contest was replaced by a pumpkin carving contest, and the watermelon feed was replaced by an ice-cream eating contest, and the boot race was replaced by a tricycle race. Activities at Pacific helped make the road of education a little smoother.

Activities Smoothed Out The Bumps In Life

It Took Time And A Lot Of Hard Work — But In The End, It Was Worth It

When we were underclassmen, not much mattered to us in school. We had to get good grades, but it wasn't because we were thinking about college. It was a fun time, because we knew that by the end of the year, we'll have made a big step up. We're closer now to the dream of walking into the real world of being more on our own. And through these years of being underclassmen, we've gained more knowledge about a lot of things that we would have, otherwise, never had a chance to learn. So being an underclassman is pretty special, but once it's all behind you, don't worry; the best is yet to come.

IT ALL COMES TOGETHER IN CLUBS



When was the last time you twisted a napkin? Worked at a car-wash, or helped out at a convalescent hospital? If you had been involved in almost any club this year, you would have been able to be a part of all of this. Of course, if you had belonged to F.F.A., Sobobans, or Dantes, you would have been a part of one of the oldest and strongest clubs on campus. These three clubs are the only ones that have survived 25 years of changes and have shown up in I.C.C. with ideas that have helped all the other clubs we now have, to come out in the open and help build a stronger student body.

Faculty

SUSAN PLAUT
EDITOR

It took a long time for many of the teachers to get where they are today. They all had goals they had to reach, and a lot of schooling to go through to get there. But they all reached their goals and made their way to Pacific High School. Many of us tend to think the faculty is made up only of teachers; but that is wrong. It's the secretaries, vice-principals, and counselors, who help hold this school together. We owe a lot to these beautiful people for helping us with the best years of our lives and the planning of our whole future.

1. A helm was given to Dr. Bailey at this retirement party. He retired in 1967.
2. Mrs. Winters finds the Senior SAT tests very amusing.

Orval Winters, Principal

The first person to occupy the captains quarters at Pacific was Dr. Bailey. His credentials proved him well worthy of the job. Dr. Bailey attained the first Ph.D. given by U.C.L.A., and in 1939 received the Best American History Novel Award for "The Ohio Company of Virginia." Dr. Bailey captained our ship for 14 years.

Dr. Brickley spent 7 years as a V.P. at Pacific before taking the job of principal. He now works in the Agriculture Department at Pacific.

Occupying the helm now is Orval Winters. She was a teacher for 25 years and an administrater for 8 years.

For 25 years our principals have watched over their crew.

3.

As the year dragged on and on, many of us didn't recognize our hard-working Vice Principals. Mr. Regalado joined the crew in 1970. He graduated from U.C.L.A. with a M.A. and B.A. degree. He is also a hard-working man and is well liked at Pacific. Mr. Fitzgerald has been with the ship since 1963, and is very dedicated to the students and his work. He graduated from the University of Redlands with a Master's Degree and has been with us ever since. Mr. Singer is our newest Vice Principal at Pacific. He started at Pacific in 1976, and attended Black Hills State College with a B.A. and also the University of Redlands with a M.A. Being our newest member on the ship, he has certainly caught on fast and is doing a great job.

It Pays To Be The Best.

The Silver Jubilee Celebration is not just for the student; it's for the faculty as well. Eight of our teachers will be celebrating their 25th anniversary as teachers for the one and only Pacific High School. These eight have devoted a fourth of a century to their professions and that just shows what many years of hard work and loyalty can do for a teacher. Each, in their own way, has found the secret for success. They are all very well known in our community and liked equally as well. And if you had any of them for teachers or counselors this year, you would know just exactly what great people they really are. They deserve the best of everything to come.

As well as being outstanding teachers, Mr. Nielsen, Mr. Meade and Mr. Brady, have given Pacific extra time and help in their many years on the ship. Mr. Nielsen, is best known for his diligent work on the Pacificana. Mr. Meade has been at Pacific for 16 years. He has now taken up science as his teaching major. Mr. Brady came to Pacific in 1954. He's been in the art department for the whole 13 years.

1. While Mr. Brady explained, two of his students looked on with confusion.
2. In 1961, Mr. Meade and Mr. Nielsen filmed the game from the press box.
3. While Mr. Nielsen slept, the annual staff pulled their hair out as the deadline came near.
4. "Let's see if we can explode the school," says Mr. Kethchum as he mixed his potion.

1. "Ain't this class over yet?" uttered Mr. Duden in his English class.
2. It was just too hard for Mrs. Copeland to cope with that paper.
3. While Miss Hempstead sang, her students slept.

Fine Faculty Never Lose

The teachers that joined the faculty in the years of 1959 and 1960 were an outstanding credit to the teaching staff at Pacific. Mrs. Pieper honors Pacific with her teaching talents in the business education courses. Mr. Green does so in the math department, and Mr. Duden in English. Of course, Pacific would never have anything but the finest faculty.

They Can Have Fun Too

The faculty follies has always raised some frolic in the minds of the teachers. And Mr. Haveman sure knew about that. He has been teaching at Pacific since 1961. He teaches German and is very well liked by all his students. As you probably know, it's not hard to like a guy like that. Mrs. Frank is one of the heads of the math department here at the 'P.' She has been teaching at Pacific since 1963. Being fairly new here she had to work hard to catch up with her students, but now she's past that stage and is considered one of the best in her field. She deserves as much credit as you can give her. She's a fantastic teacher, person, and friend.

The years, 1965-1969 provided jobs for some new members to our fantastic teaching staff. The talents of Ms. Cereceres, Miss Lemon, Mr. Fox, and Mr. Angelo proved to be very rewarding to the educational process at Pacific. These teachers were helpful in the classroom and outside of the classroom, and they were very pleased with their jobs.

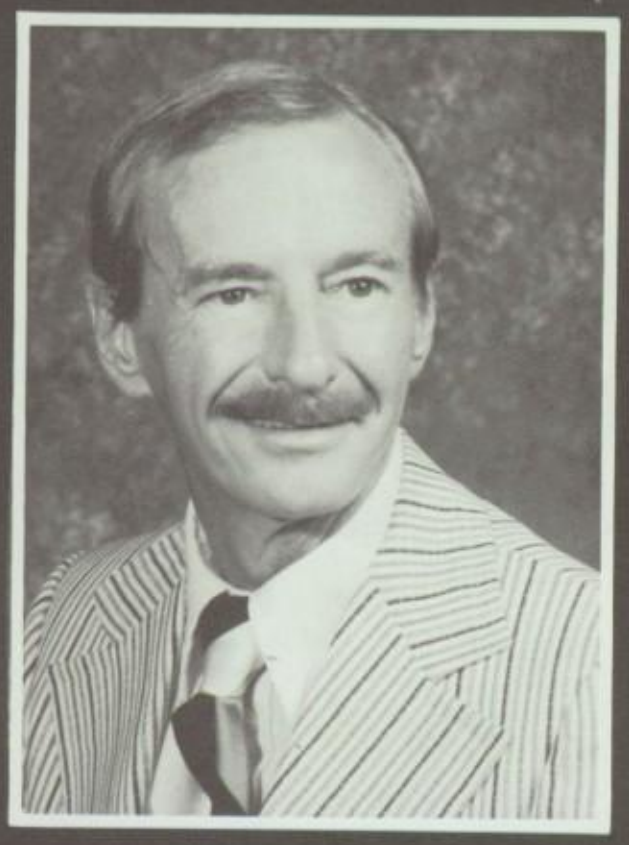
It Isn't All Fun And Games

Among the many activities the faculty participates in every year, is their annual Christmas party and Faculty Tea. This year's Faculty Tea was hosted by Sobobans, and turned out very well, as did the Christmas party that was held at the Elks Club. It began when school was out on Friday, 'til?

1. Say have you heard the latest about . . .?
2. "You wouldn't happen to have any Uncle Munchies Curious Crunchies on hand?" asked Sgt. Weiss at the December Faculty Tea.
3. As usual, Mr. Nielson and Mr. Meade together and all smiles. Who knows what they've been up to?
4. After a hectic quarter the teachers had to get away and have some fun!

A Salute To The Man Who Made Pacific #1!

Jack Fitzgerald
Vice-Principal



To all of us at Pacific, faculty and students alike, Mr. Jack Fitzgerald meant something very special. Jack first arrived here in 1963 as a teacher for special education. He was then transferred in 1968 to San Bernardino High School as a Vice-Principal. In 1969, he was unanimously brought back to Pacific to remain as Vice-Principal ever since. For the 10 years Mr. Fitzgerald has been with Pacific, our school has gone to the top and many changes have taken place. This year, Mr. Fitzgerald was chosen as Honorary President of the Faculty Club. This is an honor that any proud American would love to have bestowed upon him. Through his years at Pacific, Mr. Fitzgerald held many positions including Vice-Principal in charge of Student Activities, Assemblies and Student Council, but for the last 2 years he has worked steadily on the curriculum. In the years that he was teaching, Mr. Fitzgerald worked on homecoming and coached wrestling. This past Spring Vacation, Mr. Fitzgerald was transferred back over to San Bernardino High, to continue as a vice-principal. Mr. Fitzgerald had very many beautiful years at Pacific and he found it easy to work with the idea of making Pacific #1, because of the people and staff he had to work with. He enjoyed his work and often found no difference between work or play. He felt the Silver Jubilee was the height of his career because it meant being able to get together and work on something special to him and with the people that meant just about the most to him; all at once. You're a terrific man and we're all going to miss you — a lot!

It Took 25 Years to Finally Get a Break . . .

1. The Silver Jubilee Weekend took place at the beautiful Apple Valley Inn in Apple Valley.
2. Here is where the alumni living accommadations were for the weekend.
3. Of the many who came for the weekend, Russ Lackner, Budd Chambers, Kris Lackner, Charlotte Chambers, Les Nielsen, Don Nieymeyer, Bonnie Smilac, Shirly Nielsen, Ann Nieymeyer, Walt Smilac and Marce Anthone, put down some of their drinks and came outside for a quick pose for the photographer.
4. Our first principal here at Pacific, Kennith Bailey, our vice principal Jack Fitzgerald and a retired teacher, Charles Kalnin, had a short little chat about old times.

If you think that the faculty had a hard year, you are only half right. If all they had to do was teach, it wouldn't have been too easy, but they got their relaxation too. On March 11 and 12, from 12:00 noon until 1:00 the next day, the faculty had the most delightful 25 hours of their life, and it was held in Apple Valley. 200 people attended this event to celebrate Pacific's 25th anniversary. To start everything off there was a formal dinner-dance Sat. evening. In between time there was to be such things as golf, swimming, and horseback riding to make their weekend all more relaxing, but due to rain, some was canceled. To finish off this splendid weekend, there was an informal brunch so that everyone could say their good-byes and thank-you's to all that helped make the weekend fantastic.

Then The Party Began!

1. At the slide presentation, Mr. Coffin was surprised to see his first portrait from the annual.
2. 3. Helping along to fill up the guest book were Marty Martinez, Dorothy Coplin, and Dr. Bailey's old secretary, Nancy Stark.
4. At the Silver Jubilee, Joe Page was glad to see an old staff member from years ago. He and Jack McClough had a good talk together.
5. After testing the punch once, Mr. Brady went back for seconds, thirds, fourths, etc. . . .

1. "Gracias!" said Blanch Preston as Mr. Fitzgerald gave both her and Eunice Overby some flowers.
Opp. 2. Teachers enjoy getting away from students just as much as we enjoy getting away from them.
3. For his opening, Master of Ceremonies, Mr. Chambers asks, "Why did the chicken cross the road?"
4. While dancing, Mr. Regalado kept a good eye on his wife.
5. The dance was a great success, especially with Mr. Will and Mr. Van Horn there to provide the music.

A Fool's Paradise

The Faculty Foolies was the most fun event of the year for the teachers at Pacific. Every year the faculty puts on a show that brings out their true personalities to the stage for anyone to see. The masters of ceremonies for this year's foolies were Mr. Fitzgerald and Mr. Chambers. They hosted the wildest show ever to hit the stage. There was a lot of music performed, by Mr. Will and the Beatles. They also hosted the 1978 Pacific Olympics. Fashions of the 50's, 60's, and 70's were also included in this evening of fool's fun. The Faculty Foolies have been around for a long time, and hopefully for a long time to come.

1. At her "Sweet Sixteen" slumber party, Martha Hempstead informs her friends, on "Who does IT," and, "Who doesn't do IT!"
2. Doing her duty, Alice Portnoi uses her Girl Scout techniques and unravels the crime.
3. 4. 5. Pacific's own version of the Beatles, "Paul" Fitzgerald, lead singer; "Ringo" Meade, drums; "John" Haveman and "George" Thomson, bass guitar, grasped the minds of the audience as they sang "I Wanna Hold your Hand."
Opp. 1. "Happy" Al U'ren displayed his talents by playing a piano medley.

2. Master of Ceremonies, Mr. Chambers, whispers "Open up the curtains!" for the fifth time.
3. For the hundredth time . . . Mr. Chambers asked Mr. Meade "Who's on first?" and of course Mr. Meade would reply, "Who's on first!"
4. Stage fright hit Ernesto Gallardo only for a moment, then he proceded to sing "Eres Tu."
5. As part of the fashions, Paul Ketchum and Sally Frank showed the audience their version of the "Hippie Scene" of the 60's.
6. At the so called Olympics, Mr. Smilac, a Polish drunk, didn't have enough money to buy a ticket, so he tried to get in as a fencing contestant.

Not all teachers should be labeled as dull. The teachers that arrived at Pacific between 1970-1973 just happened to be involved in Pacific's 20th anniversary. The teachers that stepped onto the Pirate ship in 1974-75 have been assets to Pacific pride, spirit, and victorious nature. The addition of a fun loving band leader has put Pacific's band in the number one spot in San Bernardino. The addition of a versatile gymnastic coach has added another sport to our athletic program. The addition of a stern ROTC instructor has made ROTC the best it has ever been. These teachers were all fine additions to Pacific's crew of incomparable people.

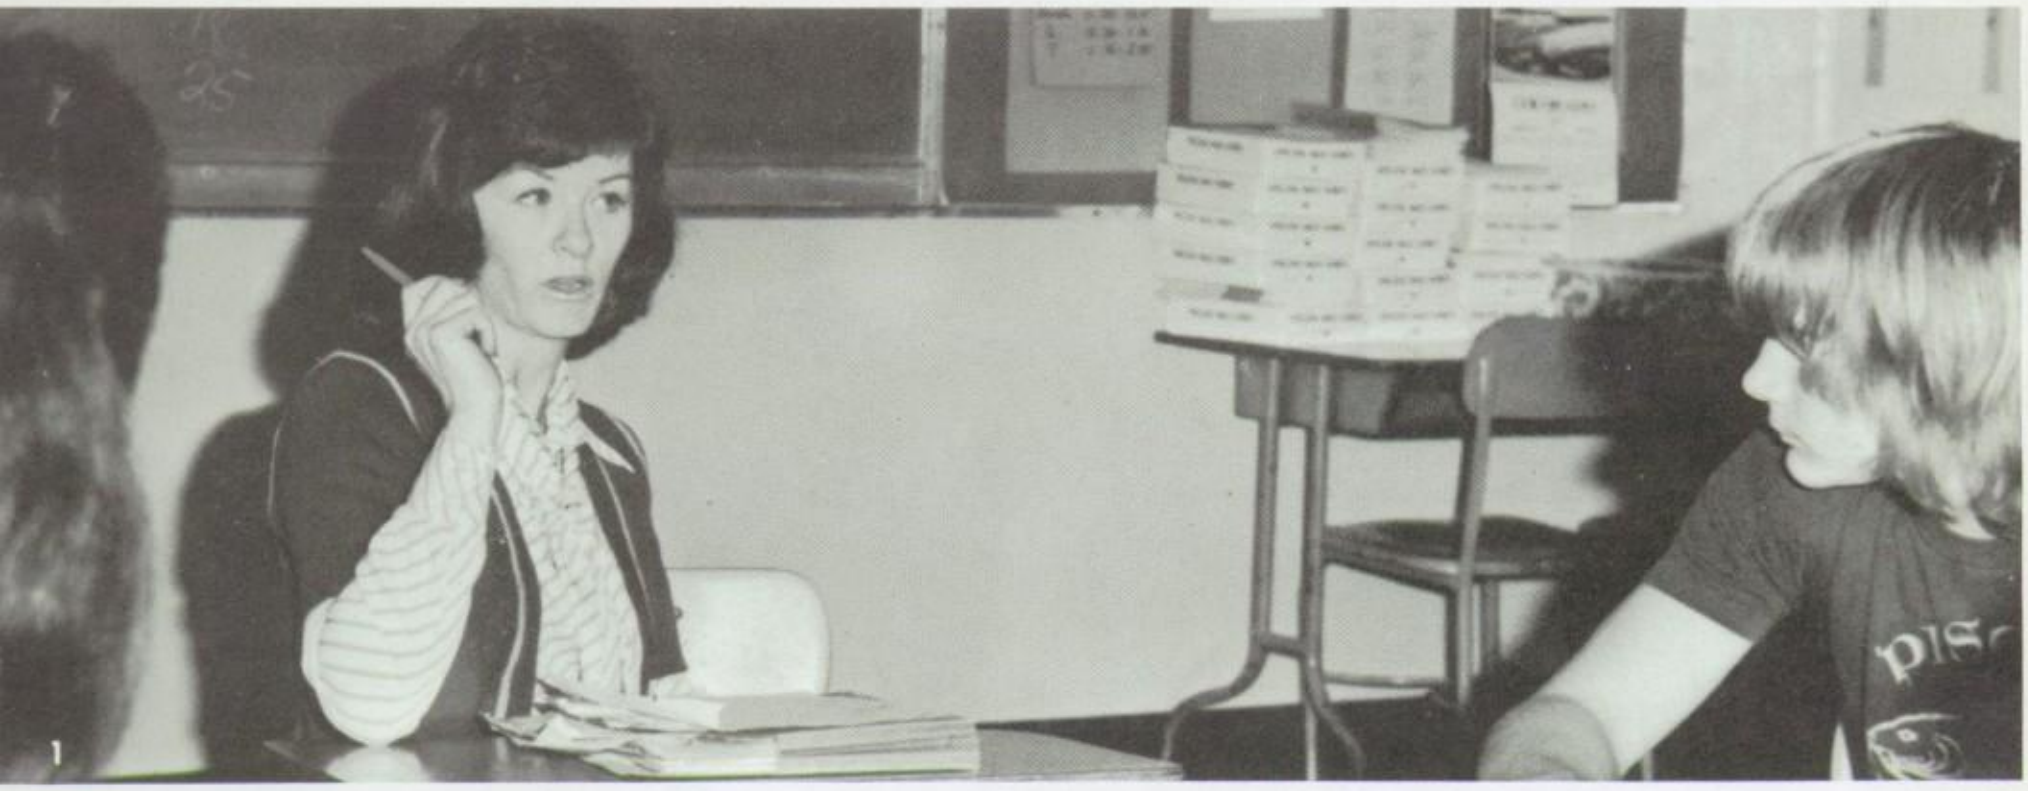
THEY WERE OUR FRIENDS . . .

Our new teachers turned out to be a real asset to the school. We could tell by the way they jumped right in and got involved with the students. They seemed to feel the need to reach out not only as a teacher, but as a friend as well. Sue Gould was always involved in meetings to plan activities for the kids. Cathy Hillman was always ready to assist the students in cooking.



1. Sue Gould was always rounding up the group for another meeting.
2. Cooking right along with the kids was Cathy Hillman's job, and she loved it!
3. Mr. Christianson did a great job with the orchestra.

The word staff should be put up in lights and made sacred at Pacific. Pacific's staff answered phones, typed letters, and ran off dittos, along with many other duties. The staff made being an administrator a much easier job. They worked hard and rested little, but they enjoyed their work.

1. Being head secretary wasn't an easy job for Nema Leonard. In her spare time she practiced her Jimmy Carter smile.

They Worked Hard So We Didn't.

1. Secretary staff at Pacific haven't changed much. They're either talking with each other or on the phone.
2. With all the paperwork she had, Carol even had a vault to stash them in.
3. Mrs. Ellis managed to give a smile even after a call from an unruly parent.
4. Although she was always kept busy with money, Linda found time to day-dream.
5. Nancy Stark, Mildred Andres, Lois McCoy.
6. Lois McCoy.

1. Being a security guard often gave Ever James heart trouble.
2. Security guard Cally Ramos went to the parking lot to bust unsuspecting students.
3. Purely by mistake, Ellis Brown busted the wrong person.
4. Attendance Aide Stella Montez, rarely had a free moment.
5. Attendance Aide, Stella Gonzales, always found something to do.
6. Pacific had a great asset in the cultural centers and the staff assistants.

Campus Helpers

Keeping ditchers out of the quad during classes, checking up on why a student hasn't been in school the past week, and keeping our campus neat and pretty are the jobs of the campus helpers. Campus helpers include the security, janitorial and attendance crews. Being a good teacher and a good student came a lot easier when their job was done well.

1. The security car came in handy many times, although Ted Enriquex couldn't find the radio.

We've made it. After 12 years of hard work, frustrating teachers, and a great time — we've made it to the top. 25 years ago, it must have been thrilling to know you've graduated the first year the school opened, and to think it was Pacific! But now that we've traveled the incredible journey, we ask ourselves — what now? We can go back to school or we can take it easy for a year or two; but whatever we've decided, we'll know that we've accomplished something that nobody else has. And that's the knowledge that we've gained in this tantalizing year of 1978.

With A Little Help *** It Can All Happen

Every year there are the class elections, and it is when everyone gets involved. We want the best people possible running the school. No one really realized that there were masterminds behind everything the officers did. Those were the 5 sponsors, who in their own time, spent many hours planning our activities and forums. When Pacific began we only had 2 sponsors, but as we grew, we had to add some more brains also. So next time you thank your class officers for arranging an extra forum; shake the helping hand of the person behind it all — your class sponsor.

By far the most nerve-wracking test that a senior will take is the Scholastic Aptitude Test. Since good scores on the SAT are so important, most seniors dread that one Saturday morning when testing begins, and most leave with a migrane headache and recently chewed nails. Most seniors agree that one good thing about going to school 25 years ago would have been NOT having to take that mind-bending exam.

The Good, the Bad, and the Ugly

1. *Pictured above, (L. to R.):* Noel Hankla, Donna Crane, Rita Schauf, Pricilla Barton, Susan Thomspon, Sherrin Larson, Beth Miller, Tammy Maples, Debbie Walsh, and Dianne DeTinne. Ambushed before the picture was taken: Denise Bryan, Kim Epps, Katie Gorian, Alison Isaacs, Jeff Kennedy, Cara Prentiss, James Udel, and Todd Vincent.

The old west had Jesse James, marauding Indians, and wild animals. D-4 had even more terrible things. All of Hollywood *and* John Wayne could not personify the terror from that room. It was the seniors on the annual staff. Never would anyone meet someone as ferocious as a SENIOR on Deadline Day. For that was when the seniors had a show down with "The Man."

Screams could be heard, piercing the air, as seniors received their last minute copy, pictures, and headings. The traumas they went through were unbearable, but they took it with a stiff upper-lip just like a pioneer.

Here come the seniors!

1. SENIOR WEEK

2. GRADUATION

Serious People With Important Business

To the graduating seniors, the last few weeks were the most important. Though many may not realize it, great planning is involved in the senior's three most important events: Senior Week, Baccalaureate, and Graduation. The seniors on these committees gave up a lot of their time and effort to help make the Class of 78 the best ever. And they succeeded.

1. *L to R, Top Row,* Teresa Forte, Mike Palhegi, Katie Gorian, Nancy Payne. *Bottom Row:* Sophia Selberis, Becky Scherer, Alison Isaacs, Kathy Slezak, Cara Prentiss.
2. Janette Hambelton, Mike Palhegi, Cara Prentiss, Kim Swnson, Alison Isaacs, Craig Smith, Teresa Forte, Gigi Kukula, Sharyl Straily. 3.*L to R, Top Row;* Bob Gallina, Mitch Cariaga, Jayne Ainsworth, Greg King, Noel Hankla
Bottom Row: Brittany Grant, Paula Beck, Karen Denton, Lisa Beeman, Teresa Forte, Kathy Slezak, Chris Cottrer, Lynn Coe, Don Gahlier.

3. BACCALAUREATE

The End Of The Beginning

After graduation, our heroes could be seen at the Magic Kingdom having a final bash to top off a long, exhausting career at the big Purple 'P.' On the eve of their commencement, seniors from all over flocked to the Happiest Place on Earth, where Tinker Bell and the gang greeted them warmly.

Senioritis

Throughout 1978 there was an uncontrollable epidemic called SENIORITIS. It afflicted the average senior at the most unpredictable moment: right before class. A temporary relief could be found in many obscure places such as Snow Valley, Newport Beach, and Del Taco, but the real cure came on June 14 when the seniors were granted their freedom.

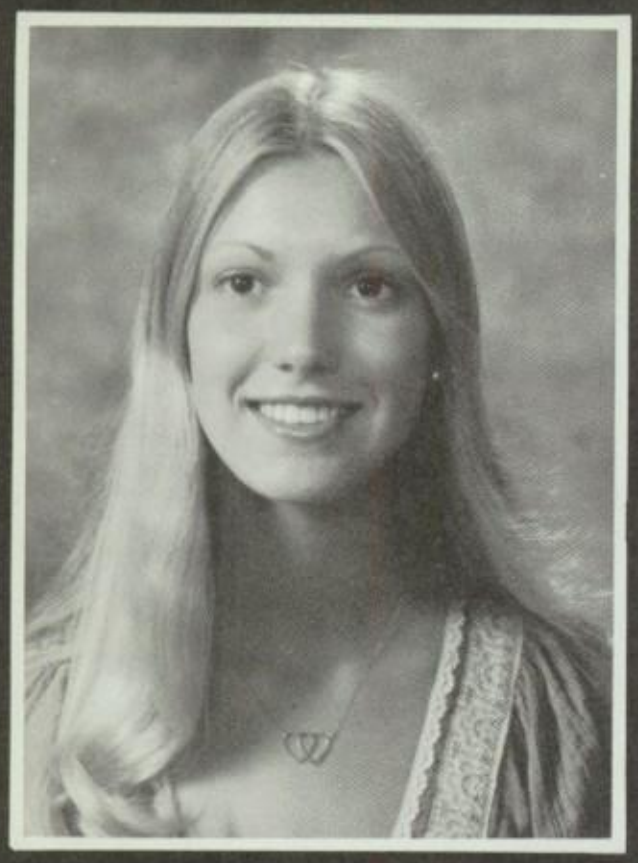
Graduation: The Ultimate Goal

As June crept up on the seniors this year, their minds were geared toward graduation. They had little time to reflect back upon the twelve years of school that were supposed to be the best years of their lives. Memories of good friends and the ever-loved summer vacation were forgotten for the moment as seniors anticipated graduation. There were many tears of joy, sadness, and relief in the final moments of graduation. No matter how much they dreaded it, when the end came, most of the seniors wished they had it to do all over again.

Academics

DENISE BRYAN
EDITOR

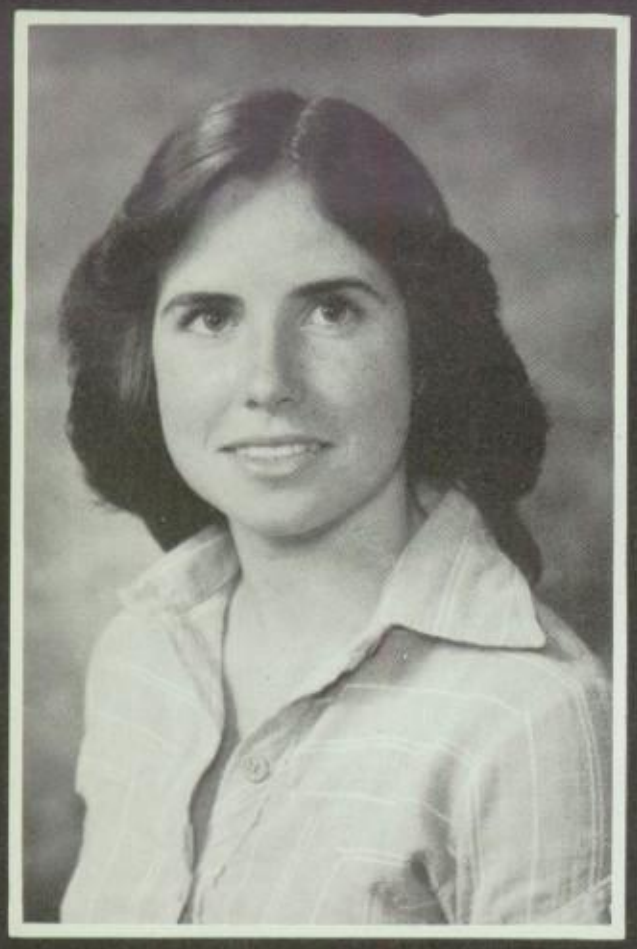
A few years ago it wouldn't have been hard to reach whatever goal you had set for yourself, academically. In society today, it takes hard work, thinking, and lots of decision making. There have been many changes in the curriculum to make the classes more relevant to today's rushed society. The biggest changes probably came about in the math-science and history fields. It's been a tough year with the majority of us succeeding in what we wanted. We made an achievement that took an interest in the study, participation and spirit of Pacific.



CHERYL COE
Valedictorian

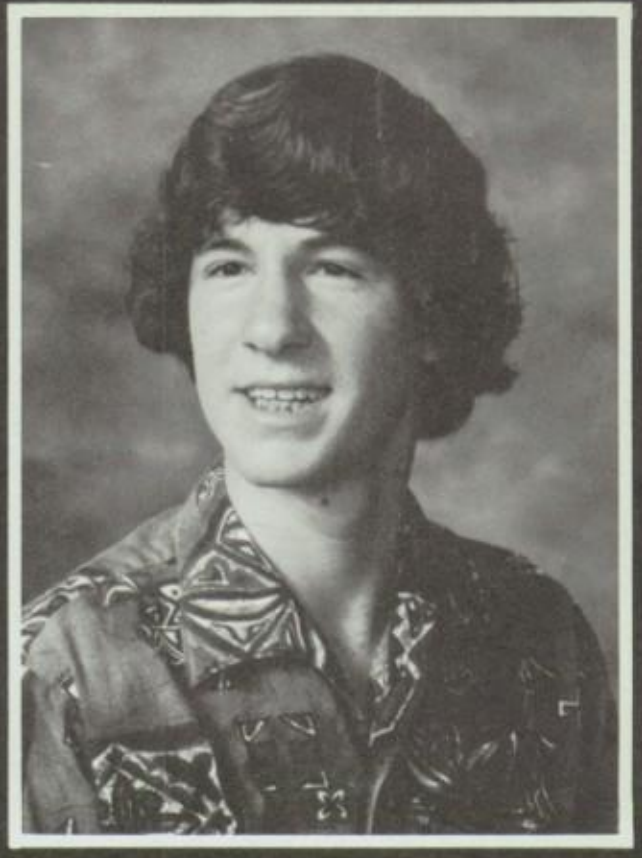
Being an active student at P.H.S., Lynne found very little idle time. She is N.H.S. President, a member of C.S.F., Z Club, A.F.S., and was Pacific's Tachikawa representative last summer. She plans on continuing her studies at Cal State San Bernardino.

Valedictorian
LORI KINNEY



A Valedictorian in the truest sense, Lori was also outstanding in Pacific's R.O.T.C. program. Her hobbies include reading, bike riding, and swimming. She is a member of G.A.P., Patria, N.H.S., and C.S.F. Next year she plans on attending Cal State San Bernardino.

Tom played on the varsity tennis
am, and was voted most
proved. He is a finalist in the B of
Math/Science competition. Tom
a member of C.S.F., and N.H.S.,
and enjoys tennis and chess. He will be attending either the University of California or Stanford University in the fall.



TOM WEISSBEIN
Valedictorian

Debbie tumbled her way to success in both gymnastics and school work. Aside from keeping up her studies, Debbie enjoys crafts, sewing, and most sports. A member of Z Club, G.A.P., N.H.S. and President of C.S.F., she plans on attending the University of Nebraska at either Lincoln or Omaha.

Pacific High's Student Council were the political whigs on our campus. Their private class met first period every day to discuss school matters. Besides arguing, once in a while they would all decide to organize such activities as dances, assemblies, forums, rallies, and noontime fun and entertainment. It was a lot of brain damaging work, but the responsibility of running the school will be remembered by all of them.

A Time To Remember

For the editors of the 1978 Pacificana, it was one helluva year. Many fierce words came from people whom you hardly thought had a voice; as the deadlines neared. It was a hard year, with the pressure of not knowing whether "The Man" would like our ideas or finding out the pictures we needed, were never taken. To be an editor or leader in anything it takes dedication from the heart as well as patience. It was fun and nothing could ever take the place of the memories we editors will always have of D-4.

Pictures are the most important part of any yearbook. It took the editors of the 1978 Pacificana a full year to brutal words, to remember this. As for Todd and the other photographers, you really did a great job.

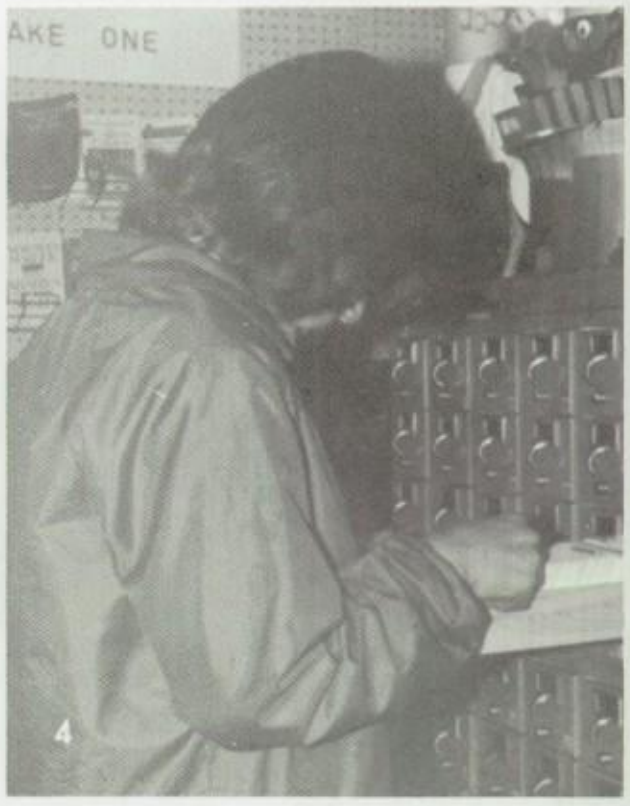
Try It — You'll Like It

A library is more than a storehouse of books. But most of us have never even visited the library to find out what it really has to offer. You could find books on just about anything, and if you didn't then there were always friendly aides waiting to help you. Once in a while you could have even seen a party going, decorated by our art department. The library, of course, has been here for 25 years; but it is an especially exciting year for Mr. Jones also. He has been with the ship for the whole 25 years also.

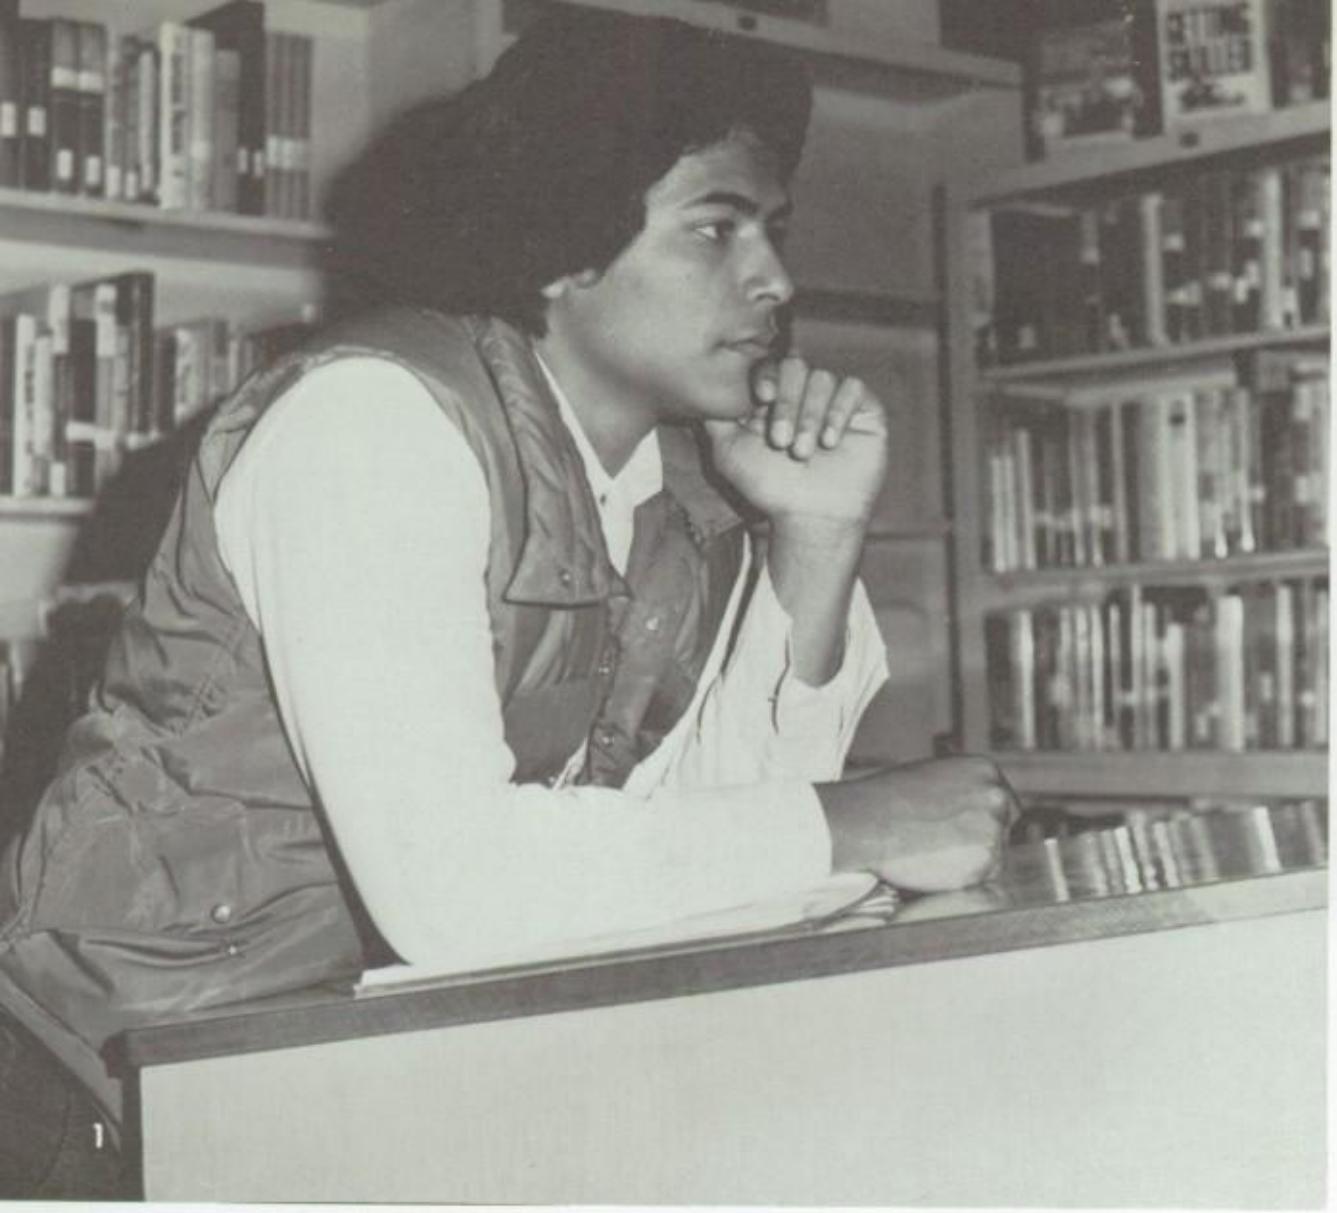


1. Lost in a world of books, Karen Smead looks for her favorite romance novel.

2. Trying not to look too conspicuous two freshmen Walter Overrolt and Derrick Knight check out books. But don't tell anyone they're going to study.

3. Although Mr. Jones has been at Pacific 25 years, this is the first year the library has had a T.V. It is the only color T.V. on campus and it is used for classroom purposes, besides it gave Mr. Jones something to do in his leisure time.

4. Using one of the most helpful tools in the library, the card catalog, Hal Brown tries to locate *101 Ways to Get Out of Doing a Bookreport.*



1. As Speaker of the House, Fernando Garcia was in charge of running the House of Reps. Meeting.
2. At the House of Reps. Meeting's the members are supposed to solve the complaints of the Students of P.H.S., as usual Kirby Kammer tried to be noticed and Mitch Cariaga voted for his own idea.

Need Help . . .

Besides trying to cope with their problems, D.S.C. and the House of Reps. read thousands of complaint letters a day. Speaker of the House, Fernando Garcia usually just went skiing, and tried to think up solutions. Both groups usually tried their best most of the time but were turned down by the Board of Education.

The 1977-78 D.S.C. members are: 1. KEN FORD, 2. BRENT CARLSON, and 3. KIRBY KAMMER.

Reading and writing words weren't the only things English classes had to offer. They taught students meanings, nouns, verbs and also expanded reading and writing skills. One of the goals of the English classes was to show up Mr. Houtchens and read 20,000 words per minute in Adv. Power Reading. There was also fun involved including field trips sponsored by M.G.M.

Two Tongues Are Better Than One

Most of us can speak English ery well, but can you speak Span- h, French or German in the same vay? Some of the students at acific this year, were lucky enough o learn how. The foreign language epartment was a terrific part of our learning curriculum this year. Spanish, German and French are taught every year, to those students who wished to have a second tongue, because two tongues are better than one.

Computers to the Rescue!

The addition of calculators and computers to the math and science fields has made finding the solutions to problems and formulas a much easier task. Math and science were the two most disliked courses on the campus, probably because they required the most work. The hardest problem that math or science students had to solve was the problem of passing the class. A few did all of the work, and studied hard. Few had parents or brothers that were good students, but most simply learned to cheat.

Friends Make the Bad Seem Good.

School can be fun. Especially when you're young enough to take Driver Education or talented enough for an audio visual class. Of course, U.S. History was fun too. But what made all these classes and all the others fun, were fellow classmates, friends and the very understanding faculty of this year. Social Science wasn't the most popular type of class to enroll in, but most of us had to and found it wasn't all that bad. Just being with your friends, changed the bad to the good, and because of that, we made it one step further.

1. Which way did he go?

Most everything will change a little within 25 years, but there is one thing in the business field, you probably haven't ever thought of before. Typewriters have changed. When Pacific first opened, the keyboards on the typewriters were blank. No letters on the keys at all. And there wasn't even the dream of electric typewriters. But as you can tell, the students were pretty happy with the nice changes that have taken place in the field.

ast Fingers Mean Business
inger Makes It Easier

Things have changed drastically the last 25 years. And by taking look at the home economics oms at Pacific, you can really tell. ong with everything else, styles in othing have been one of the big- st changes. Years ago, Pacific udents were making pleated irts, and putting in zippers and ttonholes by hand! Now we have wing machines, that at a push of a button, will practically make the garment for you. Cooking has also changed, but not so much as sewing. 25 years ago, you would only have smelled the aroma of home-made bread, stews and soups, but if you had ever walked past the home ec. room this year you may have caught the smell of anything from cookies to spaghetti.

1. Sewing took a steady hand along with patience and time.
2. Homemaking was more than cooking and sewing, there was cleaning to do too.
3. Is it straight Sheri?

Without Us, Nothing Would Grow

After getting sore bones and a bad case of the bores, Dr. Brickley decided it was time to take a break from desk work. The good Dr. has created one of the most fantastic programs the P.E. and Ag. departments San Bernardino has ever seen before. The class is Outdoor Living and is 2 years old. It lets the kids take a much broader and closer look at our world than behind a desk. The Ag. department has won many awards with the help of Pacific students. It's a spectacular class that no one ever dreamed possible.

The vocational art classes taught students something that is probably just as valuable as math, science, and history. Learning a trade was the chief concern in the vocational arts classes. Learning to work on cars, work with metal, and do handy things with wood allowed students to use their hands as well as their brains. Vocational arts classes trained people for occupations, a very beneficial factor in a young persons future.

Let Your Fingers Do The Painting . . .

Of the many subjects offered at Pacific, art is the over-all favorite. It takes an imaginative mind and creative hands to create beauty in art. Not all of us are so talented that we can pick up a paintbrush and paint a masterpiece. But those of us who can, and who did this year are special people. The walls in the hallways are beautiful examples of what kinds of things the art department offers to the students. So next year, if you think you can handle it, get into an art class and let your fingers do the painting through the hallways.

A Sharp Eye And A Keen Mind

The field of performing arts is surely one to be looked into. Drama, Speech, T.V. Workshop, and Creative Writing are all a part of it and is very fascinating work. Speech has gained a lot of recognition within the past couple of years as well as winning many awards for Pacific. T.V. Workshop is very new and teaches students how to run the T.V. cameras and film events that take place at school.

Practice Makes Perfect

Music is like the wind, blowing freely and beautifully. Music was everywhere at Pacific this year. The band, with it's many, many performances kept busy this year, winning various medals and trophies. It was larger this year than it ever has been, and equally as good. Mr. Will, who teaches chorus, choir, ensemble, and concert choir, has been at Pacific for 11 years. He does his teaching in the largest music room Pacific has ever had. The piano he uses was brought to the school when it first opened, and was used this year to make Mr. Will's students sound fantastic. The robes that were used in their performances, were also brought to the school in 1953 and were worn in all their award-winning shows this year. Congratulations to all the members of the band and the singers at P.H.S., and remember the old saying "Practice Makes Perfect."

Buddy Lethbridge a senior at Pacific was chosen as this years' "average" student. He is a good student academically, but is also involved in a wide variety of activities including Steiners, House of Reps, water polo and human relations council. Besides being in his classes, Buddy could be found most anywhere on campus around his friends. He was well liked by everyone, and we would like to thank him for being such a great guy and allowing us to come to his house at 6:30 am to photograph him getting ready for his day as an average student.

Buddy's day begins with a bowl of Wheaties.

Within the past five years, Pacific athletes were not known for their winning seasons. But when you take a trip back 25 years, it is obvious to see that the Pirates have had their share of championships, outstanding players, and excellent coaches. The athletes have also had to make many changes. Most of them had to agree to the new rules and techniques of new coaches. The Pirates were always having to face the problem of who was to take the place of the players that graduated the year before. Although they tried to reach their best playing abilities, the Pirates never seemed to give up.

Maybe Next Year

After an impressive victory over Cajon, it looked like this years football team was going to be one of the major threats in the league. It turned out that the Cajon victory was a very misleading factor. Although the season proved to offer nothing but disappointment for the football team, the fans still enjoyed the rockem', sockem' action of the sport.

1. As Kevin Graf got intensely involved by watching the cheerleaders, he didn't hear a thing Coach Kalinich said.

The Future Is Sweet

This year's J.V. football team combined speed, strength, and brains to come up with a recipe for a winning season. Both the coaches and the players were definitely pleased with their team which suffered only two losses. The team provided a positive future for next year's varsity.

: 2. Superstars of the Frosh-Soph team aited anxiously to be put into the game, Graig Geane, Rick Abrego, David Ruiz).

The Frosh Soph Football Team could have just as well taken the place of the Varsity team this year. Being underclassmen, they had more drive and ambition to make it on the Varsity team then the guys who were already there at the top. There have only been a few underclassmen who have made it to the Varsity team, and we had one this year who did an excellent job playing on both teams. You all had a good year and we hope that during this summer you'll train hard so you can be a part of the "BIG TIME SQUAD" next year.

Up The Mountains And Through The Hills

Up the mountains and through the hills went the Pacific High School cross-country team. The members of the cross-country team had to be in the best shape of any of the athletes at school. Competing in a sport that requires strong lungs and a lot of physical endurance made the cross-country teams proud of every effort they put into the long grueling sport.

Water Polo Pounced Back

This year, water polo became a most popular sport to our finned fans of Pacific. But to the players, it was a lot of hard work. A few managed to find time to lounge around the pool to watch. All in all, it was a great year for the pool gang and we hope that someday they'll be better than our football team.

1.

1. It was times like these, when Kenny Martinez wasn't in the water, that the team had a chance of winning.
2. Goalie Kevin McCurry saved many shots from ominous opponents.
3. The Pacific team finally found their way down to the opponent's goal.
4. Pacific polo man Richard Wiggins stopped blowing bubbles to try to block a shot.

3. As a mass of fighting muscle, it was hard to tell who was or who would win. In the end Pacific came out on top.

For the past few years, the Pacific high school Wrestling teams have been the lone provides of a winning season. Although they were joined by some other sports in the winning column, the varsity wrestling team did not give ground. The group of strong willed wrestlers worked hard all season, just to have the satisfaction of saying we're number one. By way of good talent and a fantastic coach, another C.B.L. championship was in the making. Winning was not only a possibility it was a reality.

Usually playing Junior Varsity athletics meant that a person wasn't quite good enough to compete at the Varsity level. Wrestling on the Junior Varsity team at Pacific means that you probably could have wrestled on a Varsity team anywhere else. That's just how good we are. Junior Varsity wrestlers worked hard, not only competing with either teams, but with themselves as well. Being second best means they will work harder in order to be the best. Each J.V. wrestler looked forward to the day when they could compete on the Varsity level.

3. The thought going through Kevin Anderson's head was, (''OH man, if this guy gets a take down, I'll never get up!'')

Super Sophs — Fantastic Frosh

Wrestling is a sport that requires brains, enthusiasm and brute strength. The members of the Frosh-Soph team had all three. They treated each match as though it would be their last. They took pride in winning and great dissappointment in losing. All they lacked was experience, and once they have had a few more matches, and a couple of hard practices, who knows how good they will be. The athletes that were members of the Frosh-Soph team have had a lot more matches at Pacific. They can be as good as they want to be.

1. Although some of the freshman on the Frosh-Soph wrestling team werenew at this you could see the improvement in these faithful young athletes.

For the past few years Pacific's Basketball team has not been known for its thrilling performances. This year, under new head coach, Doug Wealch, the Pacific basketball team re-installed the winning attitude at Pacific. Coach Wealch helped the players to believe in themselves and their abilities. Their reward was self satisfaction. When it was over, the Pirate basketball team had surprised themselves, some fellow students, and even a very non believing Sun-Telegram sports writer.

Bricks For Lunch: Wins For Dinner.

New coach, Todd Visball had to be proud of his J.V. basketball team. They did everything he wanted. If he wanted them to run through a brick wall or jump off a cliff, they'd do it. Fortunately for their J.V. team, he didn't want that. All he ever asked was that they put forth their efforts one hundred percent; and he guaranteed that if they did, then 90% of the time they would win. They took his advice and they made it. In the end, they got to say to themselves, "A job well done."

Annette,
I'm glad that I got to get to know you this year, & I hope to get to know you better next year. (If possible)

The word that would best describe the Soph-Frosh Basketball team is talented. Coach Bill Geiger had to be pleased the first day he walked into the gym and looked over his team. They were young and inexperienced, but they were very talented and eager to please. They never gave up, and coach Geiger never stopped believing. The Soph-Frosh team holds a fine future in basketball at Pacific.

What do you get when you cross a net with a ball? Tennis, of course. Being one of the most fast action mind blowing and enthusiastic sports around, the art of tennis has caught on fast at Pacific. Our boys tennis team has always shown perfection and did just the same this year. Coordination is really the true name of this game, for tennis deals very much with the mind. There is yet to be a sport so gripping as this game they call tennis.

To be an athlete you must take almost everything seriously . . . especially if you plan to run track. Grueling practices and hard meets is what track is all about. It requires solid concentration at every moment and the few who were considered outstanding, must be very talented. This year's track did as well as was expected and they owe their victories to the very special few who had it all together. Track is not a one on one sport, but it takes a lot of teamwork and with this knowledge, Pacific's track team will be able to run away with the league championship someday.

A Will To Win

Track is becoming a more world-wide sport now, compared to 15 years ago when it was just getting off the ground. Track does not just consist of running; there is lots more to offer than that. The shot-put, long jumps, hurdling, and the discus throwing are all a part of it. Track did very well as a competitive sport and shows much promise for next year.

Girl's Sports

KIM EPPS
DONNA CRANE
EDITORS

Thru the past twenty-five years girls sports weren't given much recognition; to most people they were just something extra that happened after school. But thru these years they've had their share of CBL Championships. But the hardest struggle was just to gain the interest of the student body and to prove that the girls were just as good as the guys. They weren't trying to prove that they were the top joc's of the school, but they could represent Pacific in the right way and that they could be sexy in uniforms too. With all the girls having their winnings, should set examples for guys.

From Rags To Riches

1. Senior Linda Kevari, would do anything to win a match.
2. A 6'3" varsity player Lisa Ulmer didn't have to jump far to block a volleyball.

2.

1.

3. Spiking the ball was one of Liz Prado's many talents.
4. Cathy Clements saves the ball from the fate of the floor by bumping.

3.

4.

The past two years the girls' volleyball team suffered
om severe loses, lots of running and excessive ridicule.
is year the volleyball team made its comeback.
though they didn't win C.B.L., this year's volleyball
pplied a lot of excitement. They even threw in some
ns.

2. Mrs. Fast, the jr. varsity volleyball coach called a team meeting to raise their spirits.

Every Man For Himself

One of the fastest growing sports in America is tennis. Where it lacks the physical contact of football and the teamwork of basketball the concentration and enthusiasm of the game is virtually unmatched. Since tennis is for the most part an individual sport, each player feels a substantial amount of self accomplishment when she wins and a serious let down when she loses. Even if you lose as a team but win yourself, there is the satisfaction of knowing as an individual you did the job.

1. No. 2 Varsity player, Sheri Shellhammer serves another ace.

2. Pacific's 1977-1978 Tennis Team: *Row 1:* B. Domingues, C. Christian, D. Drapper, D. Dunwoody, S. Shellhamer, T. McMinn, C. Peruls, C. Botts, S. Siperstien. *Row 2:* V. Gray, K. Katz, D. Waitchies, M. Irora, B. Beggs, S. Beeman, T. Sickmeir.

1. Standing over her winning team, Coach Domingues gives a proud smile.

2.

2. Pacific's #1 CBL player Carol Pat Christian sat down to rest after winning her match.

4. Over a cool cup of ice Donaraee and Sheri were discussing their game strategy.

5. I thought that this was quick drying nail polish.

C.B.L. Here We Come

The Varsity Girls' basketball team came home with a second place trophy from the La Sierra Tournament. With new head coach Bill Fox; they were 2-1 in tournament play, compared to their last years record of 0-14. They have a very young team with 2 outstanding returning sophomores. The 1978 Varsity team consists of 2 seniors, 1 junior and 6 sophomores. After beating San Bernardino, and causing a complete upset, this year's team appears to be well on their way, so, "WATCH OUT C.I.F."

Pic 1. Like something from the *Omen* Vanessa Brown made the ball rise from the floor.

Driving down the court was Sheri New-
n, a starting J.V.

4. During a tough game, Pacific's Varsity girls set up an impenetrable screen.

Varsity 77-78

Diane Weddington, Thersa Forte, Vanessa Brown, Kristin Kopp, Lisa Ulmer, Kathy Clements, Aretha Billington, Lyne Smith, Lori Thompson, Coach Fox.

Junior Varstiy 77-78

Lonnie Trunko, Annie McElroy, Julie Poirier, Cynthia Burnett, Sheri Crane, Satyra Watson, Kiveli Williams, Velma McClai, Julie McCabe, Alex Nesbitt, *Bottom Row:* Bounce Sheri Newton, Angie Hammer, Belinda Johnson.
5. A Sophomore with some height, Kristen Kopp made a good defensive move.

Row 1: C. Lightner, A. Russell, R. Huges, C. Lightner, P. Collins, G. Collins, S. Caeman, *Row 2:* K. Epps, D. Mosecy, M. Edwards, K. Berner, A. Pompa, K. Jenkins, A. McElroy, *Row 3:* Coach Fox, S. Smith, V. McClain, S. Newton, R. Vandensen, S. Cridelich, D. Pate, C. Atkinson, T. Face

2. Taking the lead in the match was Diane Mosley.

1.

Through the past few years girls track has been given the run around. But this year after some backing from the Student Body and ASB and Linda Cooper they were given new uniforms and some self-assurance. With new pride in the school they now ran lots of laps, jumped lots of bars and threw steel balls all the way to C.B.E. Many of the girls even made it to C.I.F.

Put Your Best Foot Forward

1. Running the race alone was quite common for Michelle Ewards because of the fantastic leads she always had.
2. After the 3rd call about to miss her race Kim Epps can't ever get her pants off.

Just being in top condition wasn't all it took to become a gymnast. You had to be very limber, which meant a hard work-out every day. The team of gymnastics here at Pacific, tumbled into victory almost every match. If you were lucky enough to catch a glimpse of them at one of the rallies you would have to agree they looked pretty fantastic. You might want to roll out and see them next year tip-toeing across the balance beam.

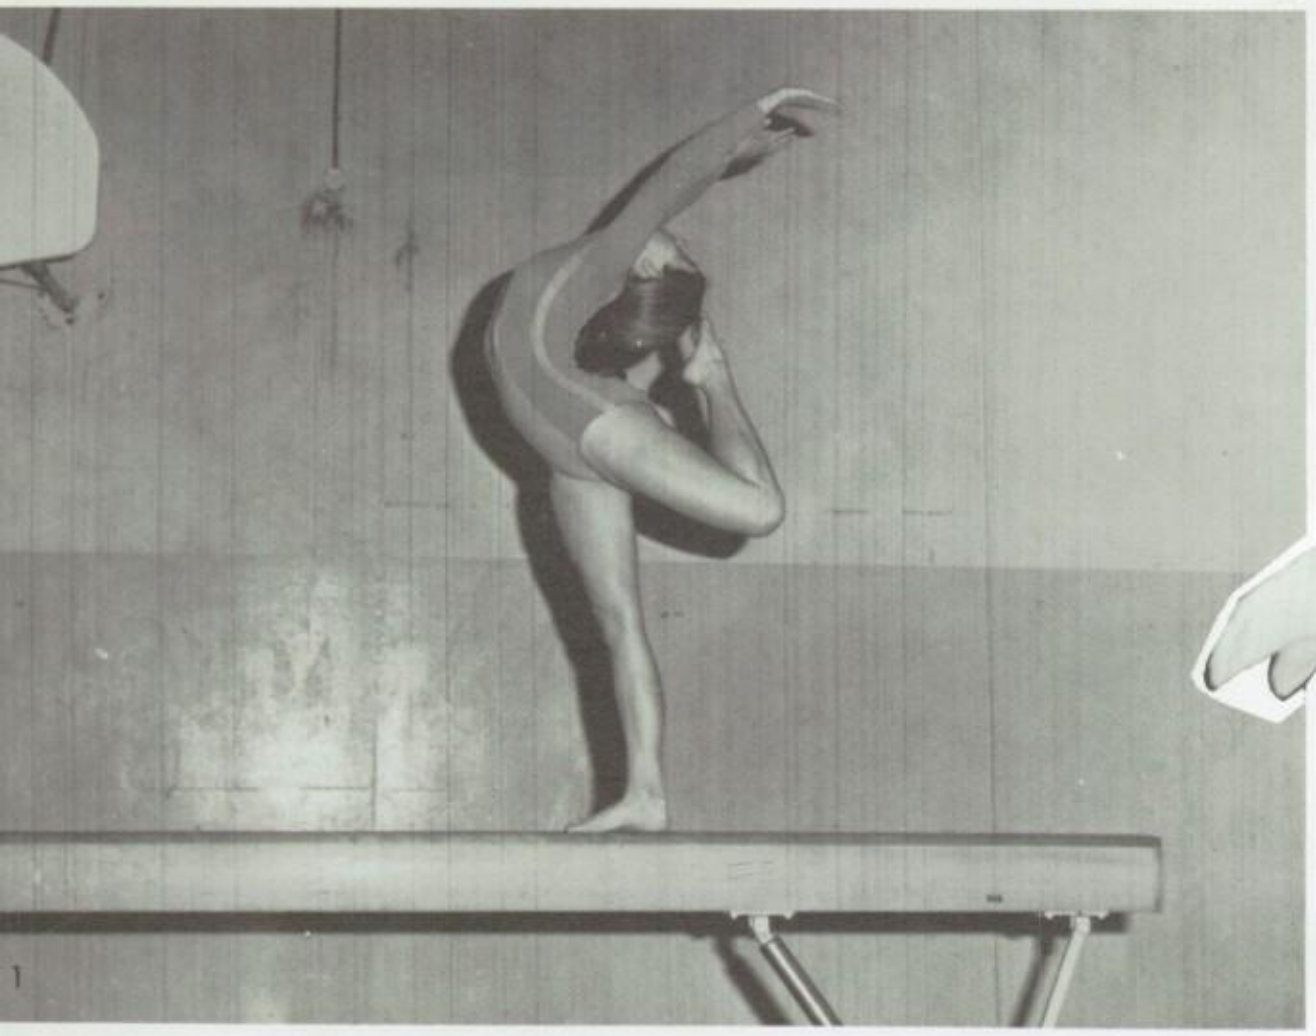
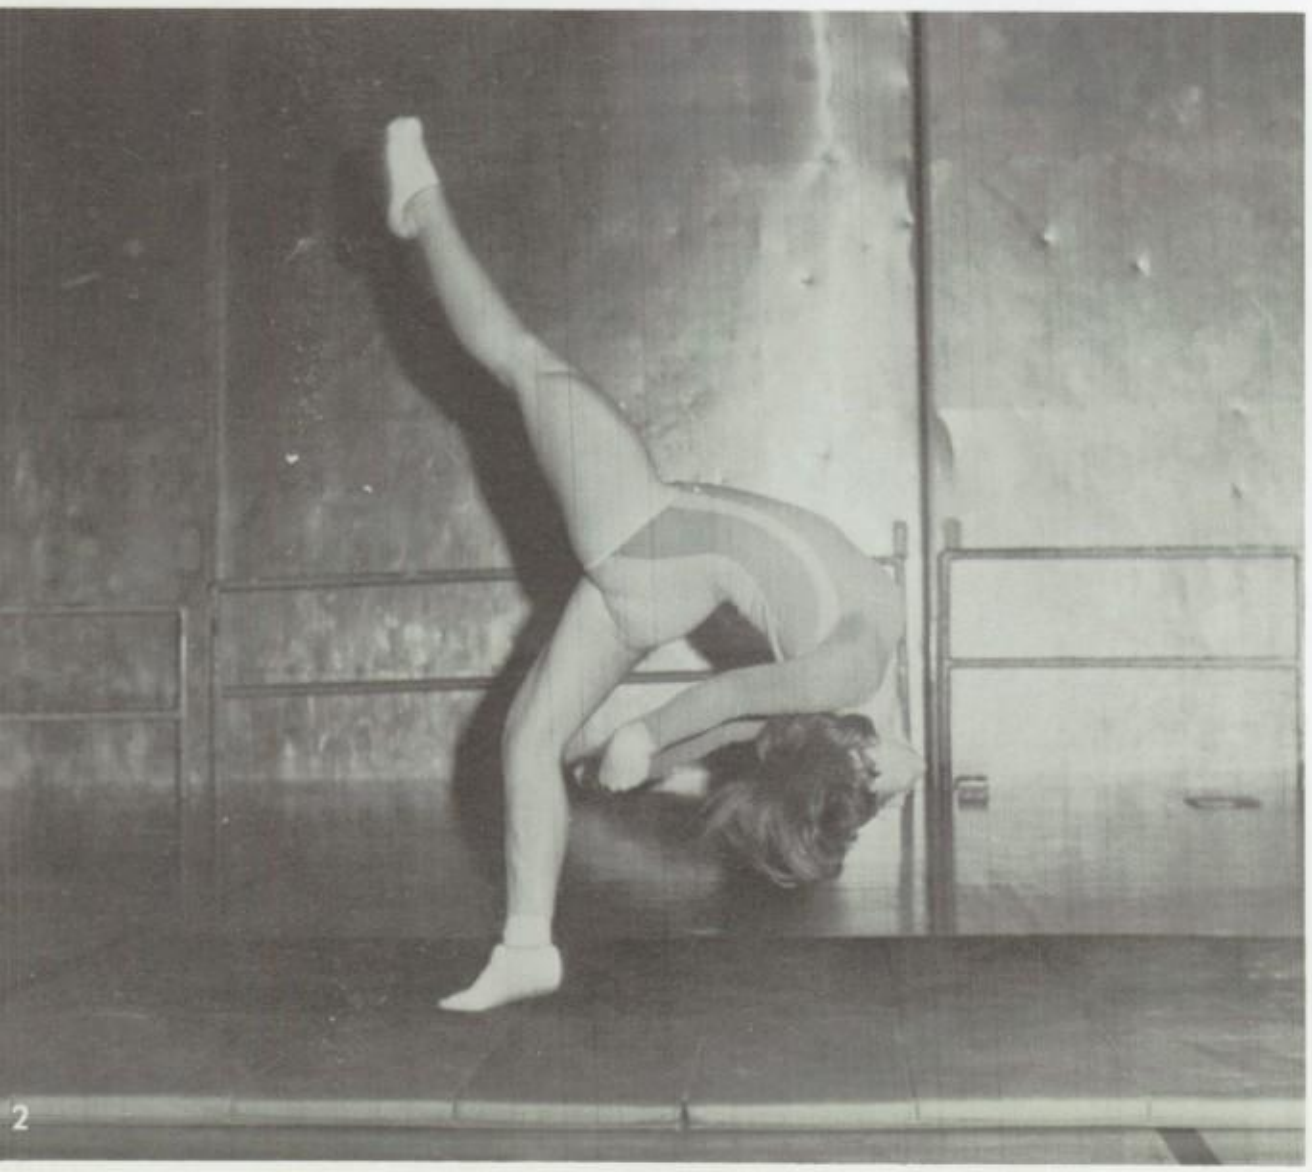
1. Here Barbara Roberts shows a gymnast not only needs balance but agility also.





2. Bending backwards for the team was Robin Roller.

1. Sometimes Elaine Drew's mind wasn't on Badminton. 2. As well as playing Badminton Varaporn Kritsanajoothe liked to show how she could dance.
3. When Lisa Brown swings her racket everyone ducks.

Keep Your Eye On The Birdie

Watching a badminton game for ne first time might look a little range to you. It's played like ten- s and volleyball put together. It's great game of relaxation while xercising at the same time. The adminton team had a good sea- on this year with good turnouts at eir games. Maybe next year more irls will find out how a good game f badminton can really help them et through the day.

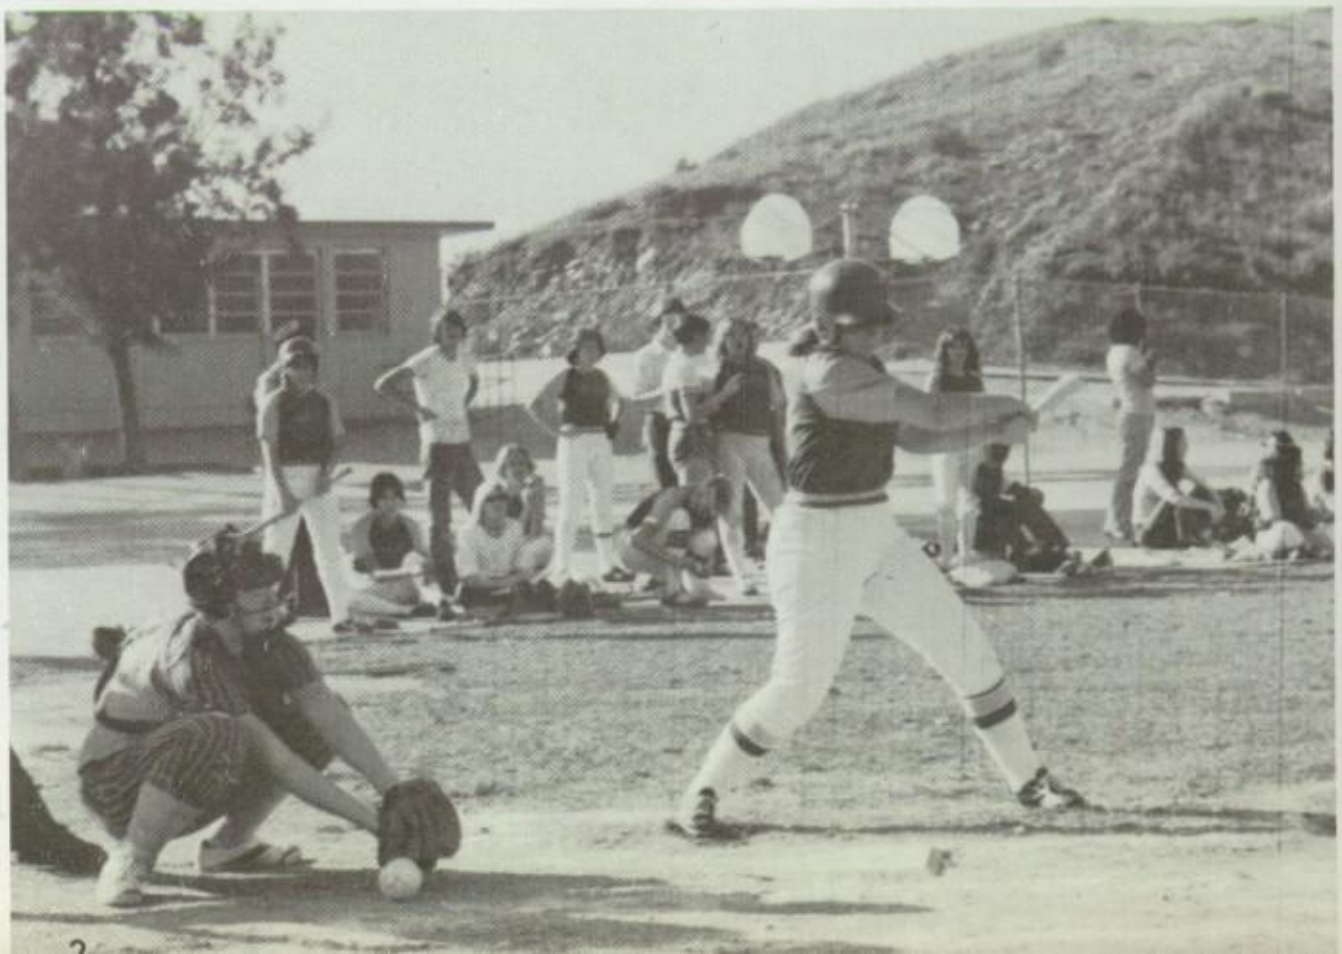
1. Now this is a Badminton racket, as Varaporn Kritsanajoothe holds hers up to demonstrates. 2. As Elaine Drew tried to hit the birdie before it hit the ground Lisa Brown stands and fixes her hair.

Batting In The Spirit

By March, the girls who made the Softball team were well ready for a smashing year. Batting in run after run for Pacific, the girls did a really good job in looking good. To be as good as they were, took lots of hard practices and work on their part as well as the coaches. Being a fairly well-known sport, softball at Pacific has helped pull a lot of spirit into our school.

1.

1. As Elaine Chason was too tired to get up she tries frantically to catch the ball.
2. Using every bit of her strength Julie Pooriaugh hits it over the fence.



2.

1. Hoping for a base hit, Lisa Ulmer did her very best.
2. Putting forth all she had, Kathy Terrell hit her first home run.
3. Our best pitcher, Barbara Hensen, had a great form.

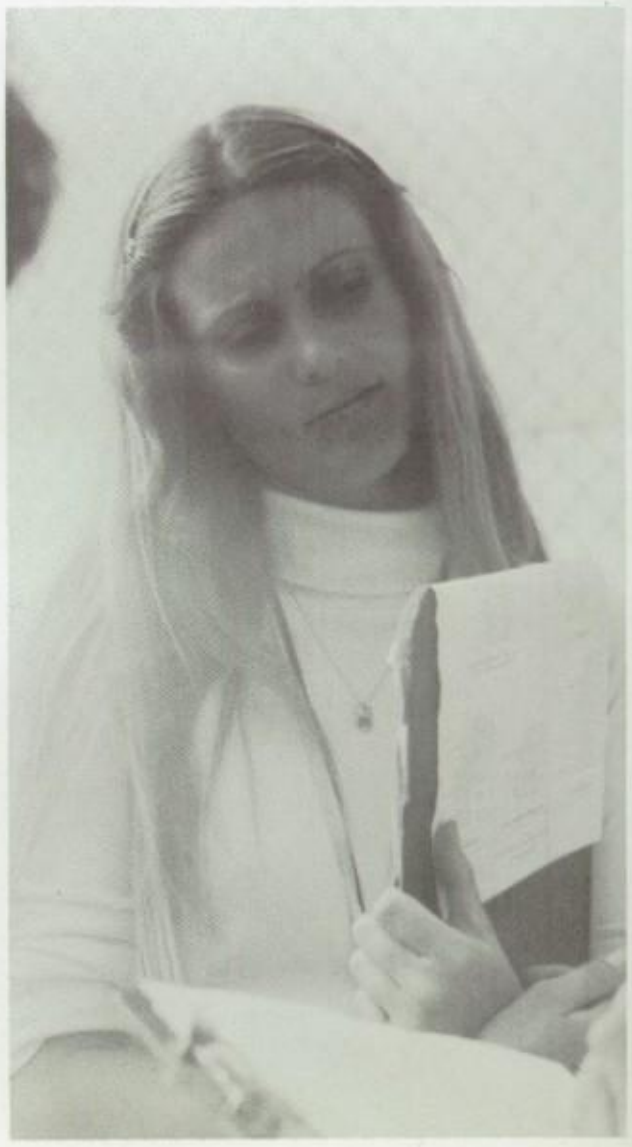
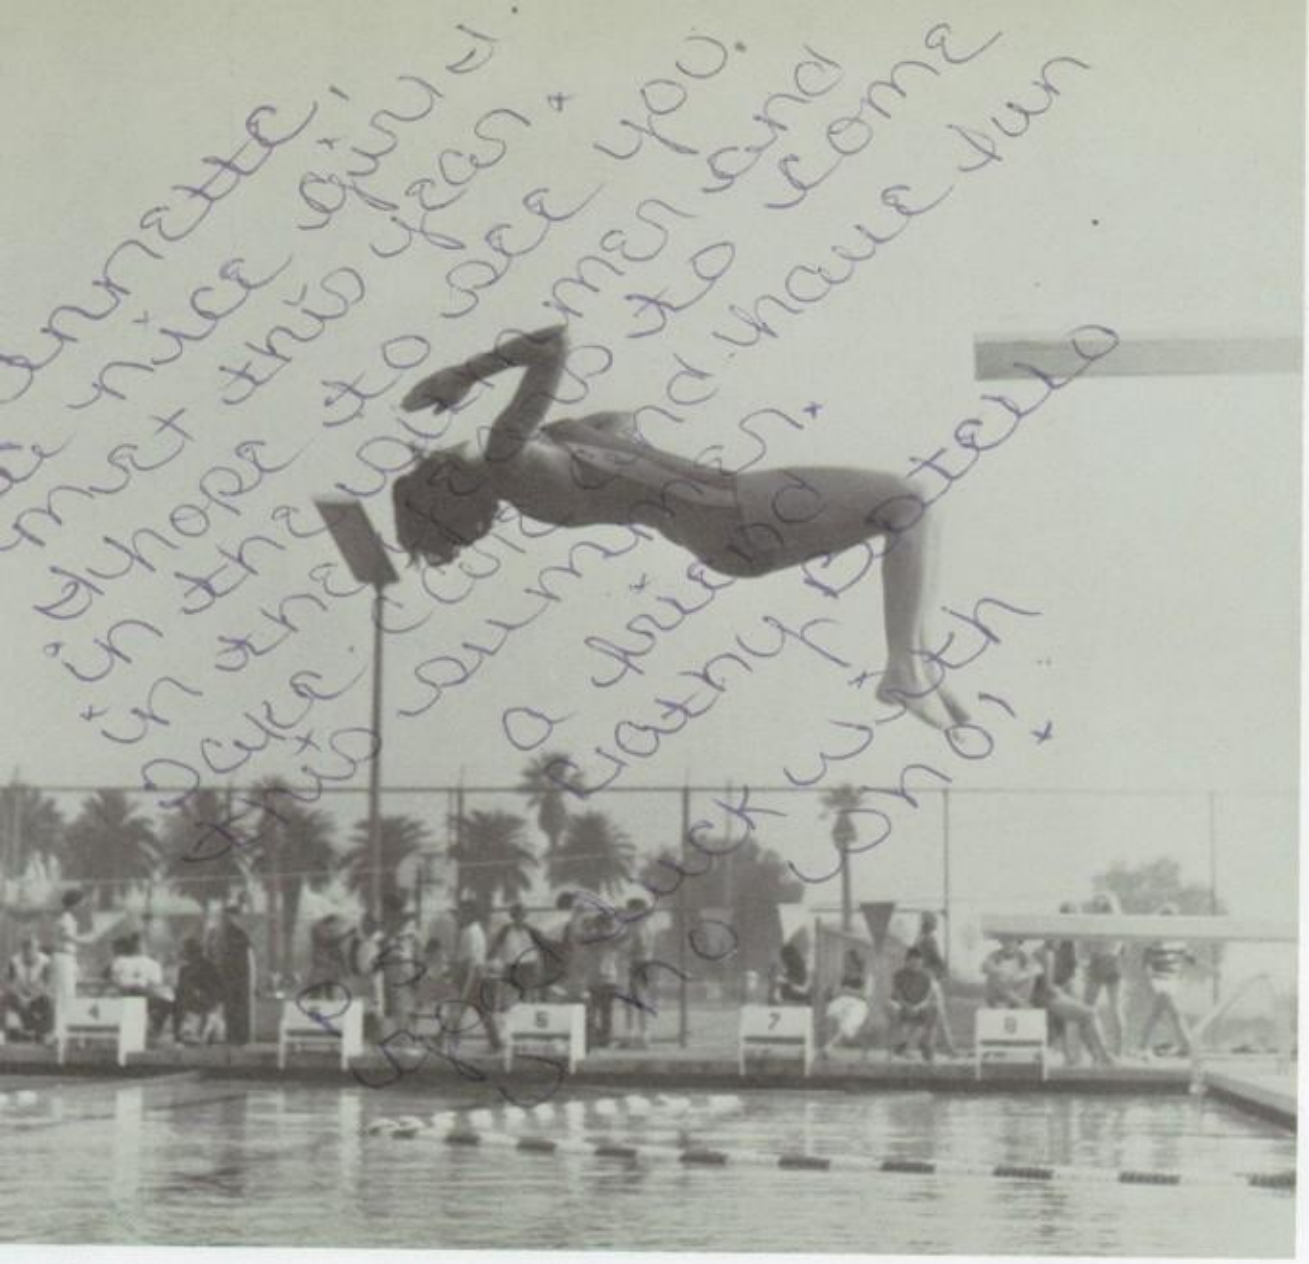
2. Pacific high school bathing beauties, kick back for a day in the sun.

3. As her first year as a Pacific swim coach, Christy Gungle took pride in her work, and it was like mixing business with pleasure.

Towards the end of each school year as the sun begins to peek through the clouds and change spring into summer; swimming starts to fall ahead of football, basketball, and even track as a form of relaxation. The girls on this year's swimming team showed us how a hobby can be turned into a thrilling and fun sport just by learning the popular breaststroke. They were a very good team for Pacific and knowing them, they will probably be at the beach all summer.

"Clean Summer Fun"





1. Sailing through the air, Yvonne Face never panicked.
2. Concentrating on her race, Terri Floyd was always ready to go.

3. Like fish out of water, Karen Kopp came up for a breath of air.
4. With great diving ability, Yvonne Face took pride in her work.
5. The thought going through Chris Jenkins' head was, "Oh Poochers! I forgot to shave my legs and paint my toenails."

Juniors

RITA SCHAUF
EDITOR

By the end of this year, the Junior class started to pep up their act as underclassmen, for they knew that their end was near. Next year they would become Seniors, and to become a Senior was special to them. They were getting ready to take over Pacific High School and do things the way the class of 1979 wanted things done. It's a scary feeling, as many knew nothing about their plans after graduation. Everything they had accomplished as Juniors would now be one more step up for them as Seniors. We wish the class of 1979 the best of luck always.

Anyone who thinks the junior class officers had an easy job should be thrown into the deepest part of the ocean with a lead weight tied to their leg. President Mark Hawkins and his officers worked hard at planning the powder puff game and the prom. Knowing that if either was a flop, they would be the blame. Well, the junior class officers didn't let us down, and it's a good thing for them they didn't.

1. This year's junior class officers were: Yvonne Duran, Representative; Evelyn Weiser, Representative; Mark Hawkins, President; Jeri Applegarth, Vice President; Kristen McDaniels, Treasurer; and down in front Susan Plaut, Secretary.

2. Vice President Jeri Applegarth smiles as she sees the finished portrait of her favorite person.
3. Taking time out from her physical fitness test, Evelyn poses to show that she is physically fit.
4. Spanish was Yvonne's favorite class, so she always did her work with a smile.

"Her Majesty 1978"

Being a princess is something to be very proud of. Princesses are defined as having supreme power over a certain kingdom, and that *certain kingdom was Pacific's* Junior class. The royalty was the Princess Monica Pilotte, and she had the beauty, charm, and personality to rule over her kingdom for 1978.

. All smiles, Monica was very happy to be hosen Junior Princess.

The Life And Times Of A Ditcher

Every student at any high school knows the meaning of the words "DITCHING CLASS!" Well, it looked as though the students of Pacific like to act out these words. Some went to the Quad to study, while others went just to socialize. The problem of ditching wasn't too bad, for most of the students made it to class at least one time out of the week.

When you do something good for someone, you don't expect anything in return. When the students joined the prom committee they didn't expect anything either, except maybe a beautiful prom, but they were surprised. Each was rewarded for their hard work with a sucker, to symbolize them hitting the big time and getting involved.

1. Before the prom began, Patty and Grant explored the grounds at the prom site.
2. In front of the Hunnington Sheraton, Patty and Grant stopped and posed for a picture.

For Patty Sauceda and Grant Reed, the prom was their night alone; it was all for them. The 1978 Junior-Senior Prom was held at the Huntington Sheraton in Pasadena. The setting was beautiful, the music was soft, and love filled the air for those in attendance. We will never have anything in our lives like this again, and it is this one very special evening that can change your whole life. To experience something wonderful, is wonderful; but knowing that only you made this evening happen is terrific.

How Wonderful Life Is

A Bit Of Work Never Hurt Anyone

Few too many juniors this year weren't interested in helping their school look good and be good. But for the few who did care, it turned out to be fun. The painting of the 'P' has been sort of a tradition, and the juniors and seniors this year underwent the task with all their might and a smile on their faces. And all just for the sophomores to dream upon next year.

The Worst Part Of A Junior's Year — PSAT

About the second most nerve wracking test for a high school student was the PSAT. Second only to the SAT, the PSAT only had one consoling thought, and that was the fact that the scores did not count. Since most juniors took the test, they had to think about the very unpopular time when they would take the dreaded SAT.

1. *Opp.,* Little Brian Latner doesn't think his brain is capable of taking the PSAT test.
2. *Opp.,* PSAT were in deep concentration in their classroom years ago. Now students take the PSAT in the Auditorium.
3. "Wow, this is easier than I thought!" said Ray Davis.
4. Deep in thought with the PSAT is Don Orosco.
5. "No! You're suppose to fill in the little bubble!" helps out Mr. Aceves.

6. Oh! Now I remember that one. Michele Everett figures out a problem on the PSAT test.

0 to 60 in One Minute

If you are one of the luckier juniors on campus with a car, then you know what paradise is. But if not; you're not out in the cold. Just make a friend who owns a car. There were many possibilities of being a junior and at the same time owning a car. You guys impressed your favorite girl by taking her to lunch. Not many juniors owned cars at Pacific this year, but don't feel bad if you didn't. Gas can be expensive!

PARKING LOT

Pupils who drive their cars to school must park such cars in the school parking lot and must register their card with the boy's Vice Principal (student police chief as soon as appointed)

The Young and the Restless

1. This year's annual staff: Donarae Dunwoody, Susan Plaut (Editor), Julie Brock, Kenny Risucci, Doug Bubeck, Lydia Ferarris, Kathy Patterson, Janet Klien, Jeff Gibson, Tracy Boucier, Valerie Gray, Katy McConnell, Mindy Smith and Mike Gorenberg. These staff were O.K. but last years were better.
2. One of the typical annual staff photographers, Kenny Risucci, took up tree climbing in his spare time.

This year's annual staff was made up solely of juniors. Most were sane when they first enterted D-4, but the way they came out was totally no fault of the editors. It was tough teaching them our special techniques, but they caught on fast. A lot of them tried the little trick of hiding up in Waterman Canyon, but we always caught up with them. Believe it or not, we really needed you to get this annual together.

1. Although some people didn't want to go for a dip, some people did anyway. Lydia, Mindy and Sports Editor Kim Epps decided that Valerie should be the lucky person.
2. If they're not climbing a tree then they're climbing a mountain. Mike and Jeff decided to become mountain men but then gave up once they got 10 feet up the mountain.

The Class of Egotism

There were quite a few outstanding Juniors in various fields here at Pacific this year. They had classes such as Chemistry, French 3, Metal and Auto Shop. Instead of waiting until their last year, they took all their hard classes in their Junior year. Many are college bound and headed towards scholorships for their academic achievements. There will surely be plenty of valedictorians to make the graduating class of 1979, a class to remember.

What The Future Holds

As the 1978 school year neared an end, many juniors started contemplating what they were going to do this summer and next year. As juniors, they have much to think about before their senior year rolls around. The future, whatever it may hold for you, is a serious step in everyone's life and takes a lot of thinking about. Many decisions will have to be made along with problems that will need to be solved, but it should be easy for anyone who walked with the graduating class of 1979.

Small Chests — Big Score

As powder puff season started dimming into view, everything started turning backwards. Some of the guys were getting their new skirts and the girls started being fitted for their new jerseys. Although many of the guys had a hard time squeezing into their sweaters because of their large chest sizes, others had no trouble at all. The girls who played that night had no trouble at all with their uniforms, for they were all "one size fits all." As usual the juniors put up a good fight, but so did the seniors, and as usual, they won!

Well, the end of the school year is here. Looking back over the past year the Juniors had a pretty good time. Even though their junior year was supposed to be the hardest, the Juniors made it fun. Next year will be a breeze, you won't have to take any hard classes. You also won't get as much of a hassle about ditching because you'll be BIG BAD SENIORS.

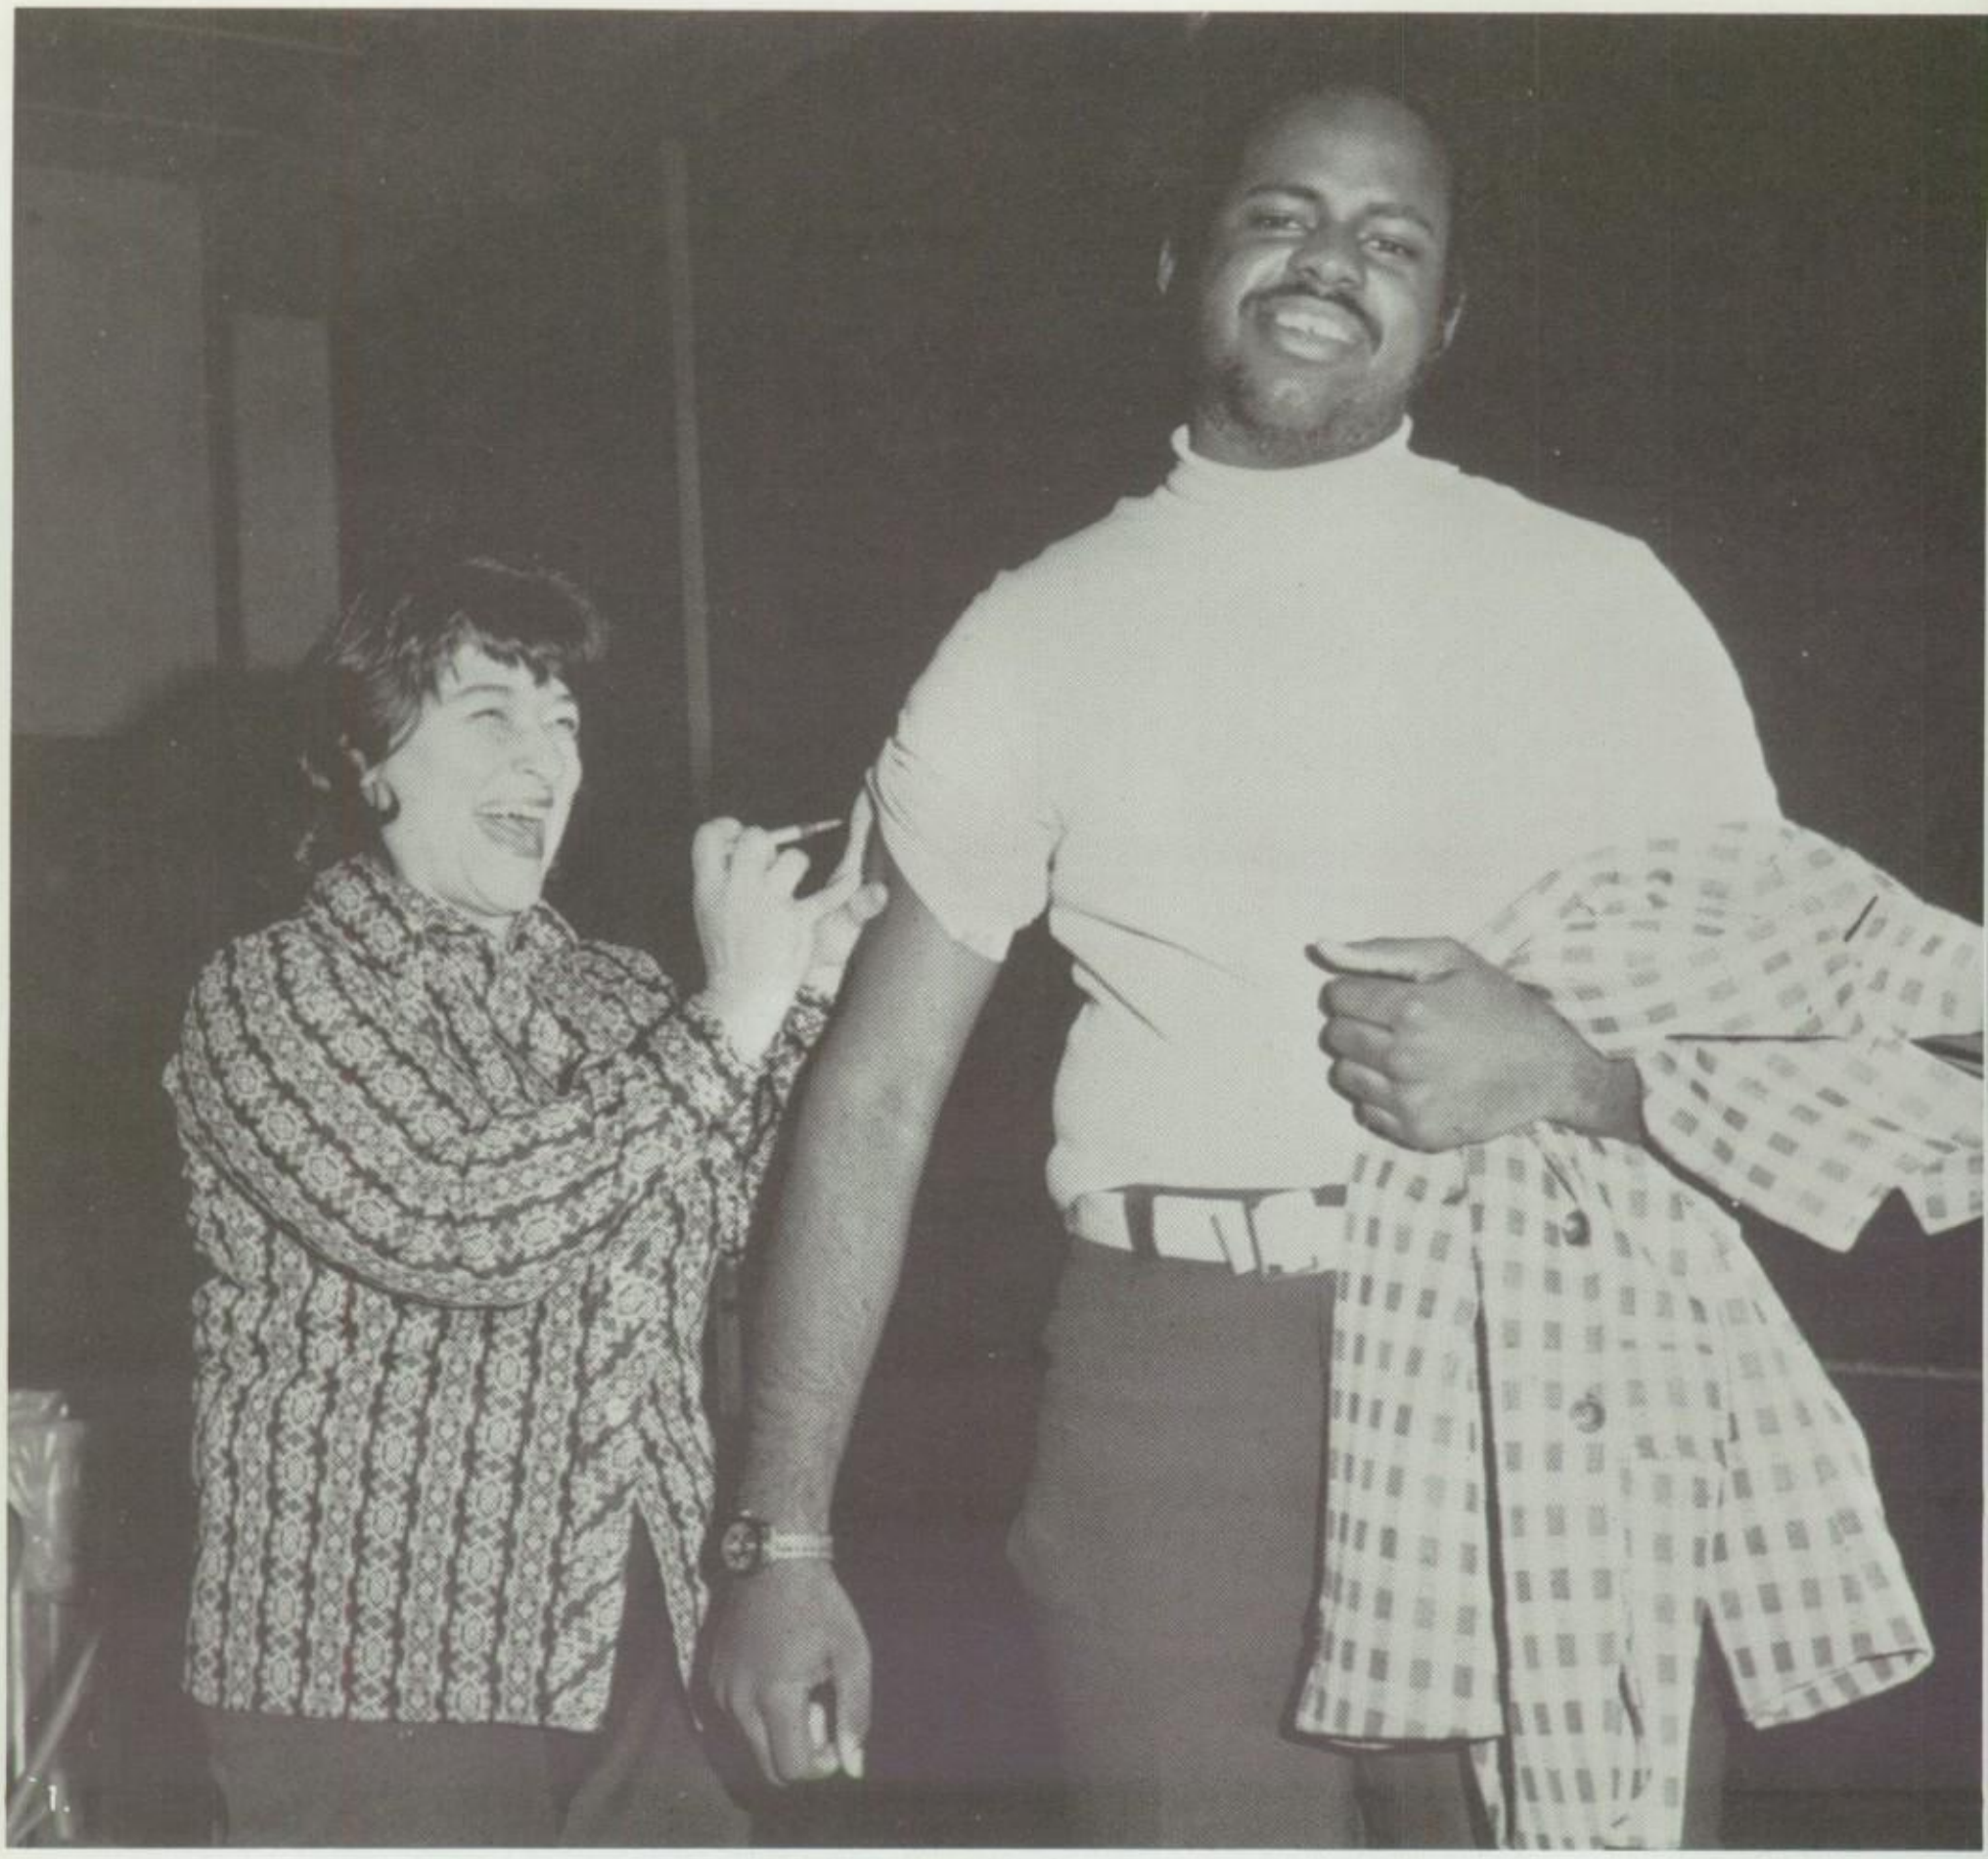
Activities

CARA PRENTISS
EDITOR

Besides sports, students of Pacific have many other activities in which to fill their spare time. Annual, Student Government, and Hi-Tide are just three of the various activities that are offered to anyone who has the initiative to 'go for it.' Just going to school isn't quite enough to keep a person going. Activities help you to keep an interest in school. Many schools do not give credit for such things as Annual or Leadership. Therefore, as students of P.H.S., we should consider ourselves privileged to have so much going for us.



1. Even when the pain was unbearable, Ken Ford managed a smile. So did Suzy Shooter.

There must be literally hundreds of activities that are offered to anyone at Pacific. If you were really into sports you might try your hand at basketball for powder puff cheerleading. If you really enjoy music, you might want to try out for the Pacific High School marching band. If these types of things don't grab you, there are a lot of other things that may be of some interest to you. It doesn't matter what or how many activities you are involved in — just as long as you choose something you are really interested in and have a good time doing it. And don't be too surprised if you find yourself joining in on a few of them.

1. Rockin' out to the beat of Star Wars, Tony Tuba played his song.

2.

2. The only thing that could have outshone Patti's smile was her very friendly personality.

5. What grace! What charm! What hairy armpits! It must be the senior cheerleaders.

Being Involved Is The Key To Success

Not too many of the students this year, realized how important a Drill Team is to a school. Pacific has had a drill team since 1956 and as the saying goes, it has improved with age. The Drill Team does so much to help boost the spirit of Pacific, and runs under the leadership of Mrs. Olsen. The Drill Team also does as much if not more than, many of the clubs in fund raising projects. And their uniforms are cute too.

1. As a Drill leader Deena was excellent, although she didn't match the other girls.

It's Cinco de Mayo again and a time for celebration. The fifth of May is a date that is very well understood by the Spanish students on our campus. It symbolizes an independence day and that is a good cause for excitement and joy. The celebrating of Cinco de Mayo is taken very seriously at Pacific and was a very colorful and beautiful festivity, where everyone was welcome to come.

1. Some of the festivities were left over in the form of pinatas, which were on display in the library.
2. The eagle, the symbol of Mexican-American heritage, could be found in room B-10.
3. During Mecha meeting, some of the members played some beautiful melodies.
4. Even members of Ballet Folklorico had to practice.

The Beauties And The Beasts

In 1953, Pacific students elected andra Skadron as the Pirates first omecoming queen. The new ueen represented style, beauty, nd grace. In 1977, nothing has hanged. Pretty Deena Galarza ackled the hearts of the crowd and ellow students. If Chaffey's foot- all team was the beast; Queen eena Galarza and her princesses ere surely the beauties.

5. Second princess Shelly Riley and her escort Mike, pose for a picture before the second half got underway.
6. With a gleeming smile, Liz Prado proved to be worthy of being crowned first princess.

The Tearjerking Outcome — How Beautiful

This years basketball homecoming was very exciting and surprising. The game; played against Eisenhower High was at it's peak just as half-time broke; Pacific was winning! With the dissappointment of having to stop the game, came the screams and tears of joy for the announcements of the homecoming queen and princesses. Senior Queen; Rhonda Terri; Junior Princess; Monica Pilotte; Sophomore Darling; Stephanie Davis; Freshman Sweetheart; Tammy Sickmeir.

Off to a Fantastic Start

In the past years, wrestling put up a fight to become the]1 sport at Pacific. In the first years of Pacific's history there wasn't such a thing as wrestling homecoming. This year's queen made it beautifully known that it shoud be part of the school's daily thinking. The tenderness and beauty of Queen Shannon Walker: 1st Princess, Patti Sauceda, 2nd Princess, Tammy Kircher will live on in the memory of all.

Tired Arms And A Lot Of Money

Putting together a successful basketball program takes a lot more than just practice. This year, Coach Doug Wealch and his drowsy dribblers collected ads, worked in snack bars and held a free throw marathon. Each player got people to sponsor him for 1¢ to 5¢ for each free throw he made. Then each player shot 200 free throws seeing how many they could make. The marathon was very successful, but when it was over, their arms were so weak they couldn't even hold a coke at McDonalds.

The memories — that was the best part of being in school.

4. Some people will never get over the excitement of sitting on Santa's lap at Christmas time.
5. Little Susie Homemaker joyously rolled out her cookies.

The halls were decked and the balls were hung as the hustle and bustle of the Christmas season brought cheer to Pacific. The Choir was caroling and the Band played on, people exchanged gifts: The whole school seemed to have the Christmas spirit.

Perhaps the most popular assembly on our campus was the annually presented Sharpe Show. Students looked on from the edge of their seats in amazement as the Sharpes exploited their many talents. Little do the Sharpes know, it isn't their talents that attract the students, but the fact that they get to see some of their best friends make total fools of themselves.

Every year around February, sports fans and animal lovers can get together for a game of basketball. The game is to the advantage of the animal lovers, though, as it is played while riding (or trying to) donkeys. This year's game was supposed to be played by our own Faculty, against the D.J.'s of KMEN. The finish was a little difficult to figure out; not because KMEN won, but because the faculty seemed to fade out and let the students take over.

They Hold the Key to Spirit

When Pacific first opened in 1953, a small marching band, sponsored by Mr. Harbaugh, was formed. Also in 1953, the first Pacific drill team was founded. Over the years the marching band and drill team had about 150 proud members. Pride was their key word, and the loyalty they showed for Pacific made these 150 students, Pacific's biggest fans.

The first Powder Puff game played, was Pacific against San Gorgonio. Many tempers flared and the game became very radical. Now the game is just played between the juniors and seniors; and like the first Powder Puff game, tempers were boiling. The crowd watched two teams of girls play a hard hitting, intense football game, while a handful of guys dressed in cheerleading uniforms provided the spirit. The game ended with the seniors winning 28-14.

Among the various activities and clubs at Pacific, did you ever think about dancing? A very fascinating, yet a little different kind of club was started this year, and was planned for all of you who were light on your feet. The club is designed to help you groove into the swing of things. Put your dancing shoes on and get your hips movin, cause there'll be a lot more action next year as the beat moves on.

Bumping To The Beat

1. King Jeffery and Queen Pat waved to the crowd from their throne.
2. Pacific alumni dancers dazzled the audience with their skill and timing.
3. Doing a fine job as emcee for the BSU fashion show was senior Bill Watson.

BSU has the reputation of being quite a club on our campus, thanks to the hard working students who believe what can happen when we stick together. Black History Week was a fun part of this and it helped us learn, as well as have fun. Black History Week is something new at Pacific and has gone over very well as far as everyone is concerned. It lets the other students outside of BSU, understand what is taking place in Black History. It is a big event that wasn't missed by anyone this year.

2.

Over the years, Pacific High School has undergone many changes. Most of them were for the best. As this year in Pacific's 25th anniversary, everyone has been trying their hardest to show how our school has really turned into something great. In the beginning there were buildings, then came more buildings, the football field, good ol' Bailey Bowl and our own Gibb's Auditorium. We've come a long way to get where we've got to this year and it was well worth every bit of hard work that was put forth. Let's make the next 25 years even better.

Many Pacific High School students participated in the various activities that were held during the year. To keep up school spirit there were rallies, basketball and football homecomings. For entertainment and enlightenment there were assemblies, movies, and quad car shows. These activities were one of many reasons for the peaceful environment we enjoyed.

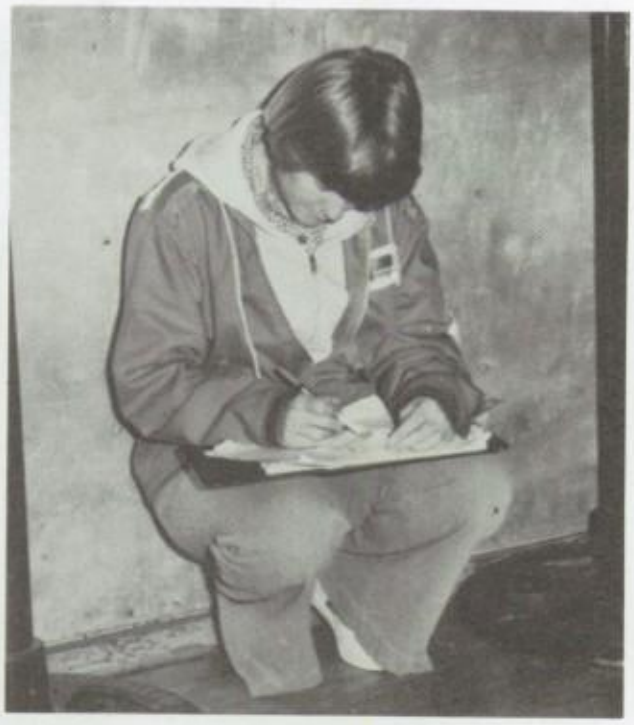
Since this year is Pacific High School's 25th Anniversary, it has been named The Silver Jubilee. All year long the students were planning and dreaming up ideas to make this year one to remember. It will be remembered; not just because of what the students have made Pacific to be — The Best! There was much to be done and only nine months to do it in. Many things were being sold so that everyone could remember just what a fantastic school year 1978 really was.

This Is Our's To Remember

Munchies Instead Of Rallies

The forums and rallies must be the most liked activity on campus. It is also the activity that is the most taken for granted. At every rally there is something to look forward to. Especially if you happened to be male. For every rally comes the cheerleaders. If you happened to be born female, you have all the sports teams to look forward to. And with the rallies comes the crowds. Not only inside the gym, but also outside in the parking lot. Students are headed for McDonald's and Winchell's for their mid-morning brunch. Besides being fun, rallies were probably the most liked activity because it made the day seem shorter.



5.

1. Opp. Tony Finazzo, coach of the wrestling team, was proud to announce that the varsity team won CBL.
2. B-O-R-E-D! The crowd became very restless as they had to watch another one of those fantastic skits.
3. "Hey, will you cool it up there!?!" The crowd constantly got out of hand and had to be quieted down.
4. It was a hard decision but Ms. Lemon tried to grade the cheerleaders fairly.
5. No . . ., not me!? Mr. Fitzgerald busted for ditching a parent cference during a rally.

1

1. At the Homecoming dance, Kenny and Sue didn't seem to mind dancing, even after everyone went home.

Among the excitement of rallies, orums and other athletic events vere the dances. Dances allowed ome of the students to let their hair own and let it all hang out. Some f the people went to dances to ance, some went to hold up the valls, but most went to socialize. his year Pacific dances were well ttended and well thought of. We ven made a little money off of it.

Give Me a 'P

This P does not stand for Pacific, and this P does not stand for Pirate. This P stands for pleasant. The members of the Varsity cheerleading squad had the most pleasant smiles, the warmest greetings and the friendliest personalities. They were usually seen smiling and joking around. Unfortunately, the Varsity cheers also had the biggest mouths and the raspiest voices.

Air Affair

25 years ago a group of six girls started a group of spirit leaders called the Varsity Flags. Now seven members make up the Varsity squad. And aside from hitting one or two of the Basketball players in the head with flags during warm-ups and knocking out a few by passing students in the quad, Shannon Walker and group did an excellent job.

3. At a recent rally, people had admitted to the fact that Shannon Walker was twirling around in an alien uniform.

Bouncing Babes

By far the daintiest members of the pep squad were the varsity poms. With pompoms in hand and tassles on their shoes, the varsity poms definately appeared as fragrant and flowery as a blossming rose. Their routines were cute and dainty, and their smiles gleamed with innocence. Anyone would enjoy having one of these for their very own.

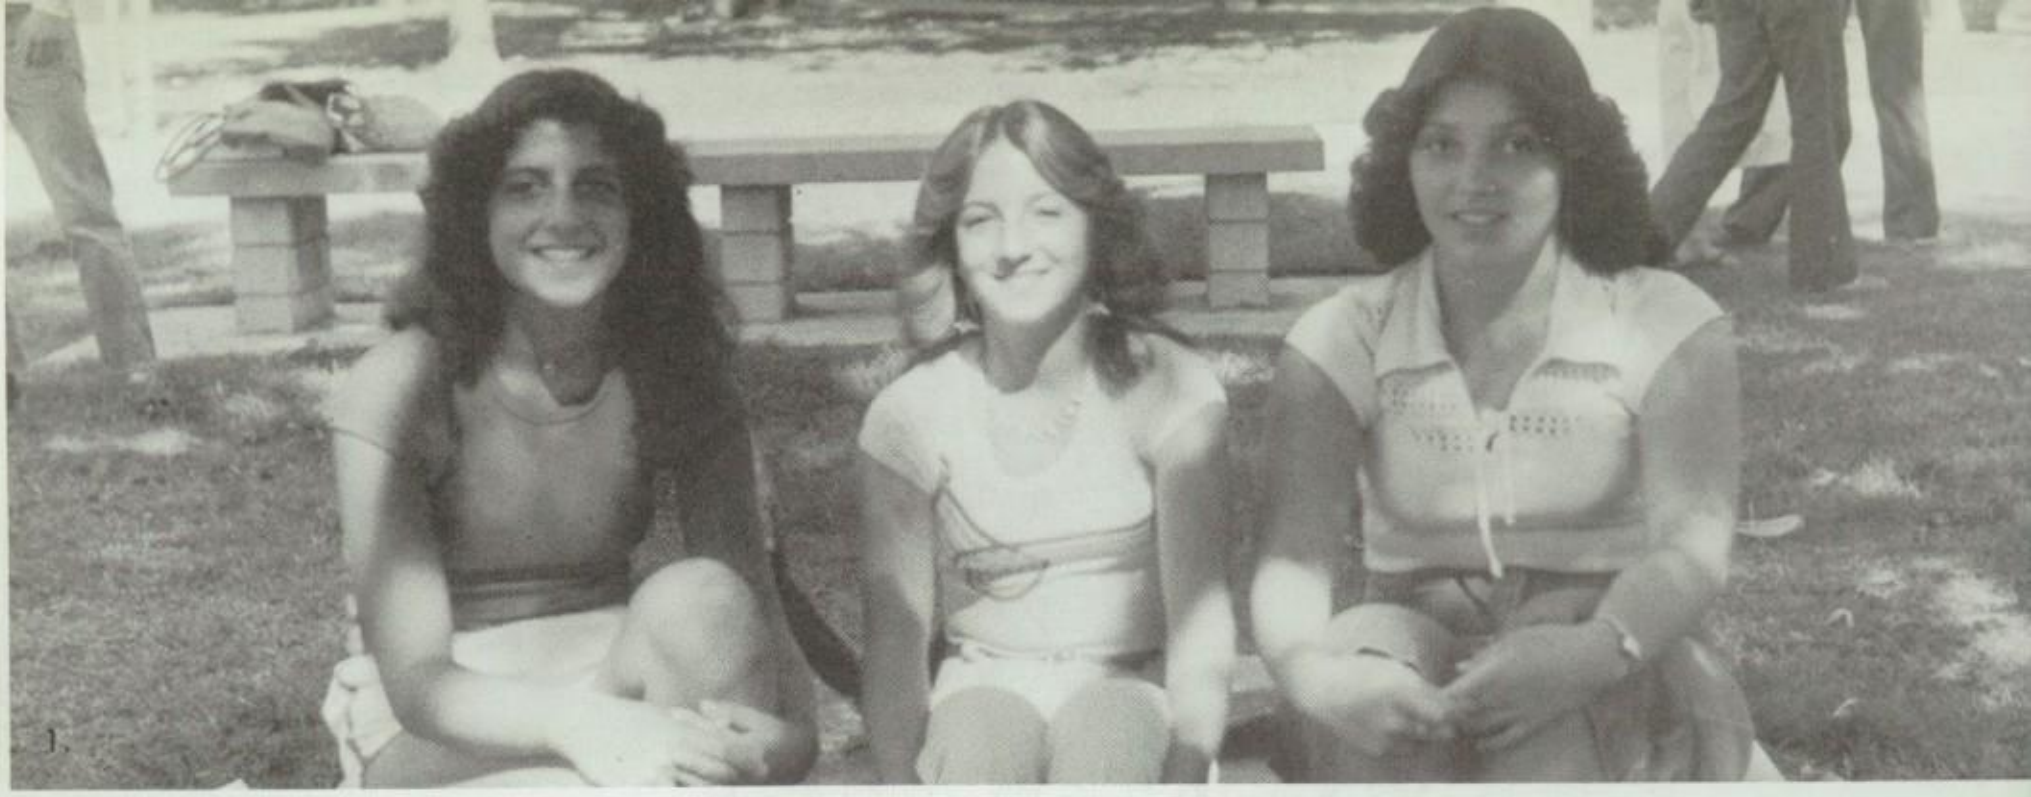
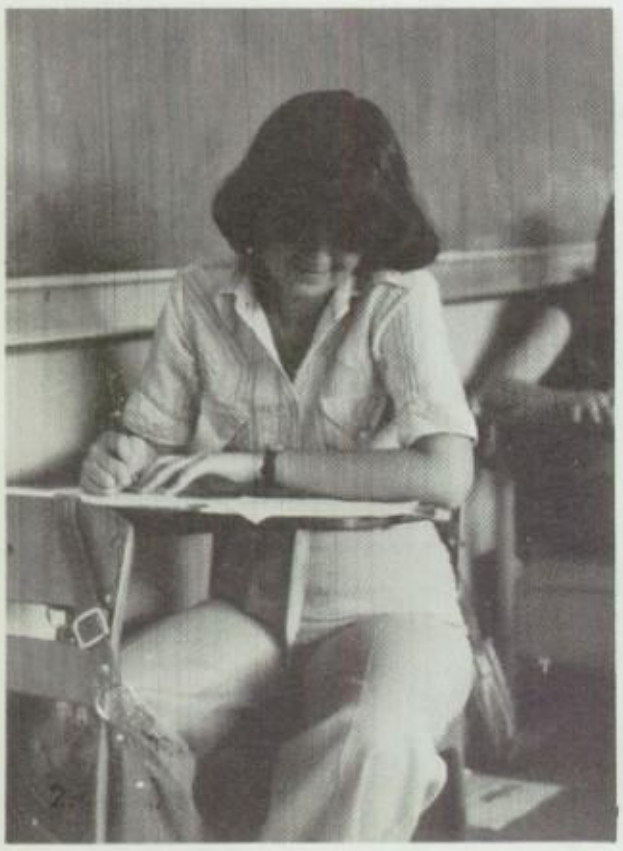
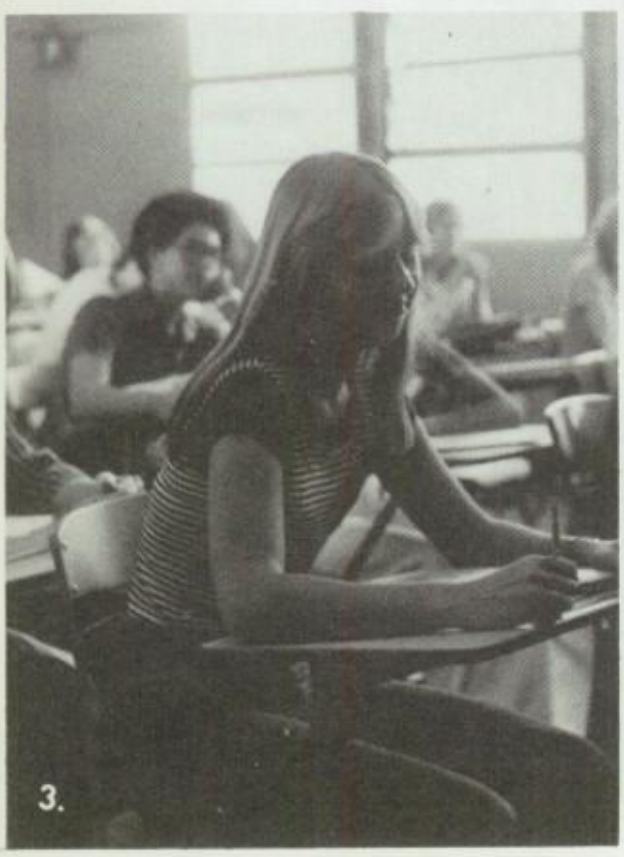
Sophomores

ALISON ISSACS
EDITOR

Being a Sophomore in any high school isn't all fun and games, but at Pacific it was more so than ever. The Sophomore year is the year in which a student can get involved in most sports, clubs, and any other activity they may wish to explore. Throughout Pacific's history, the Sophomore class was the most liked because you could have the most fun while going to class and learning. You can now start getting a grip on yourself; your Junior year will become a little harder. You'll have to admit, though, your Sophomore year was or will be the best year you'll ever have.





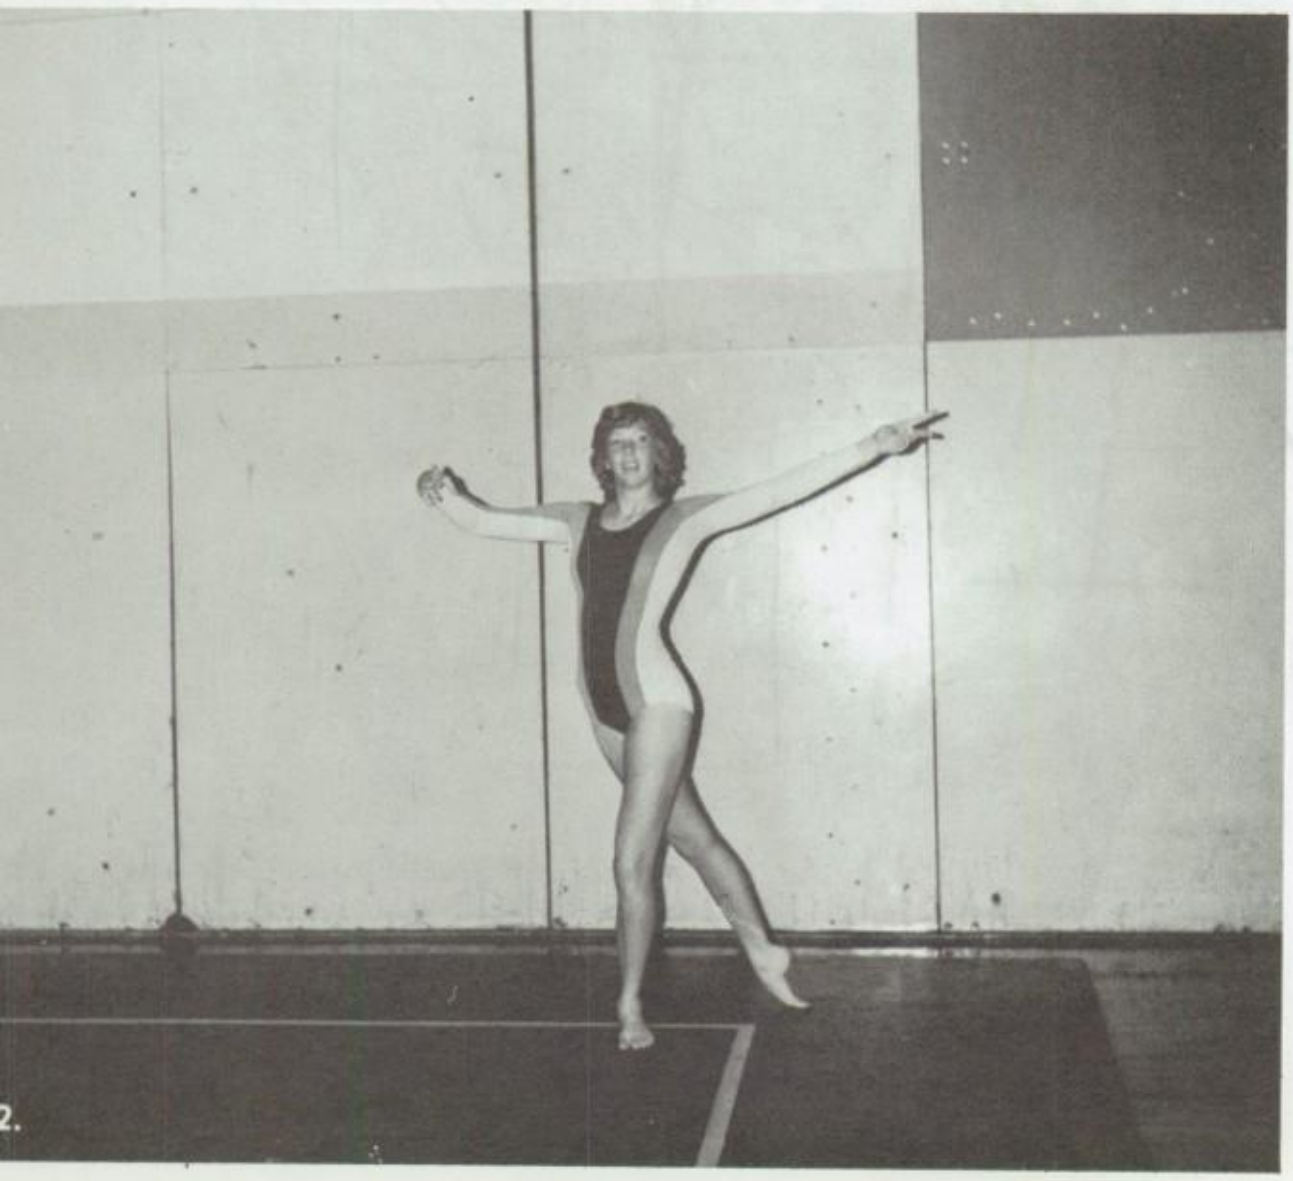


1.

1. This year Sandy, Linda, and Tracy, the sophomore reps worked as a team.
2. Class secretary, Lori Storer enjoyed doing her work for Drivers Ed.
3. Treasurer, Dee Morris, smiled as she scribled out the answers from the desk.
4. As you can tell the Class of 80 was on the ball.

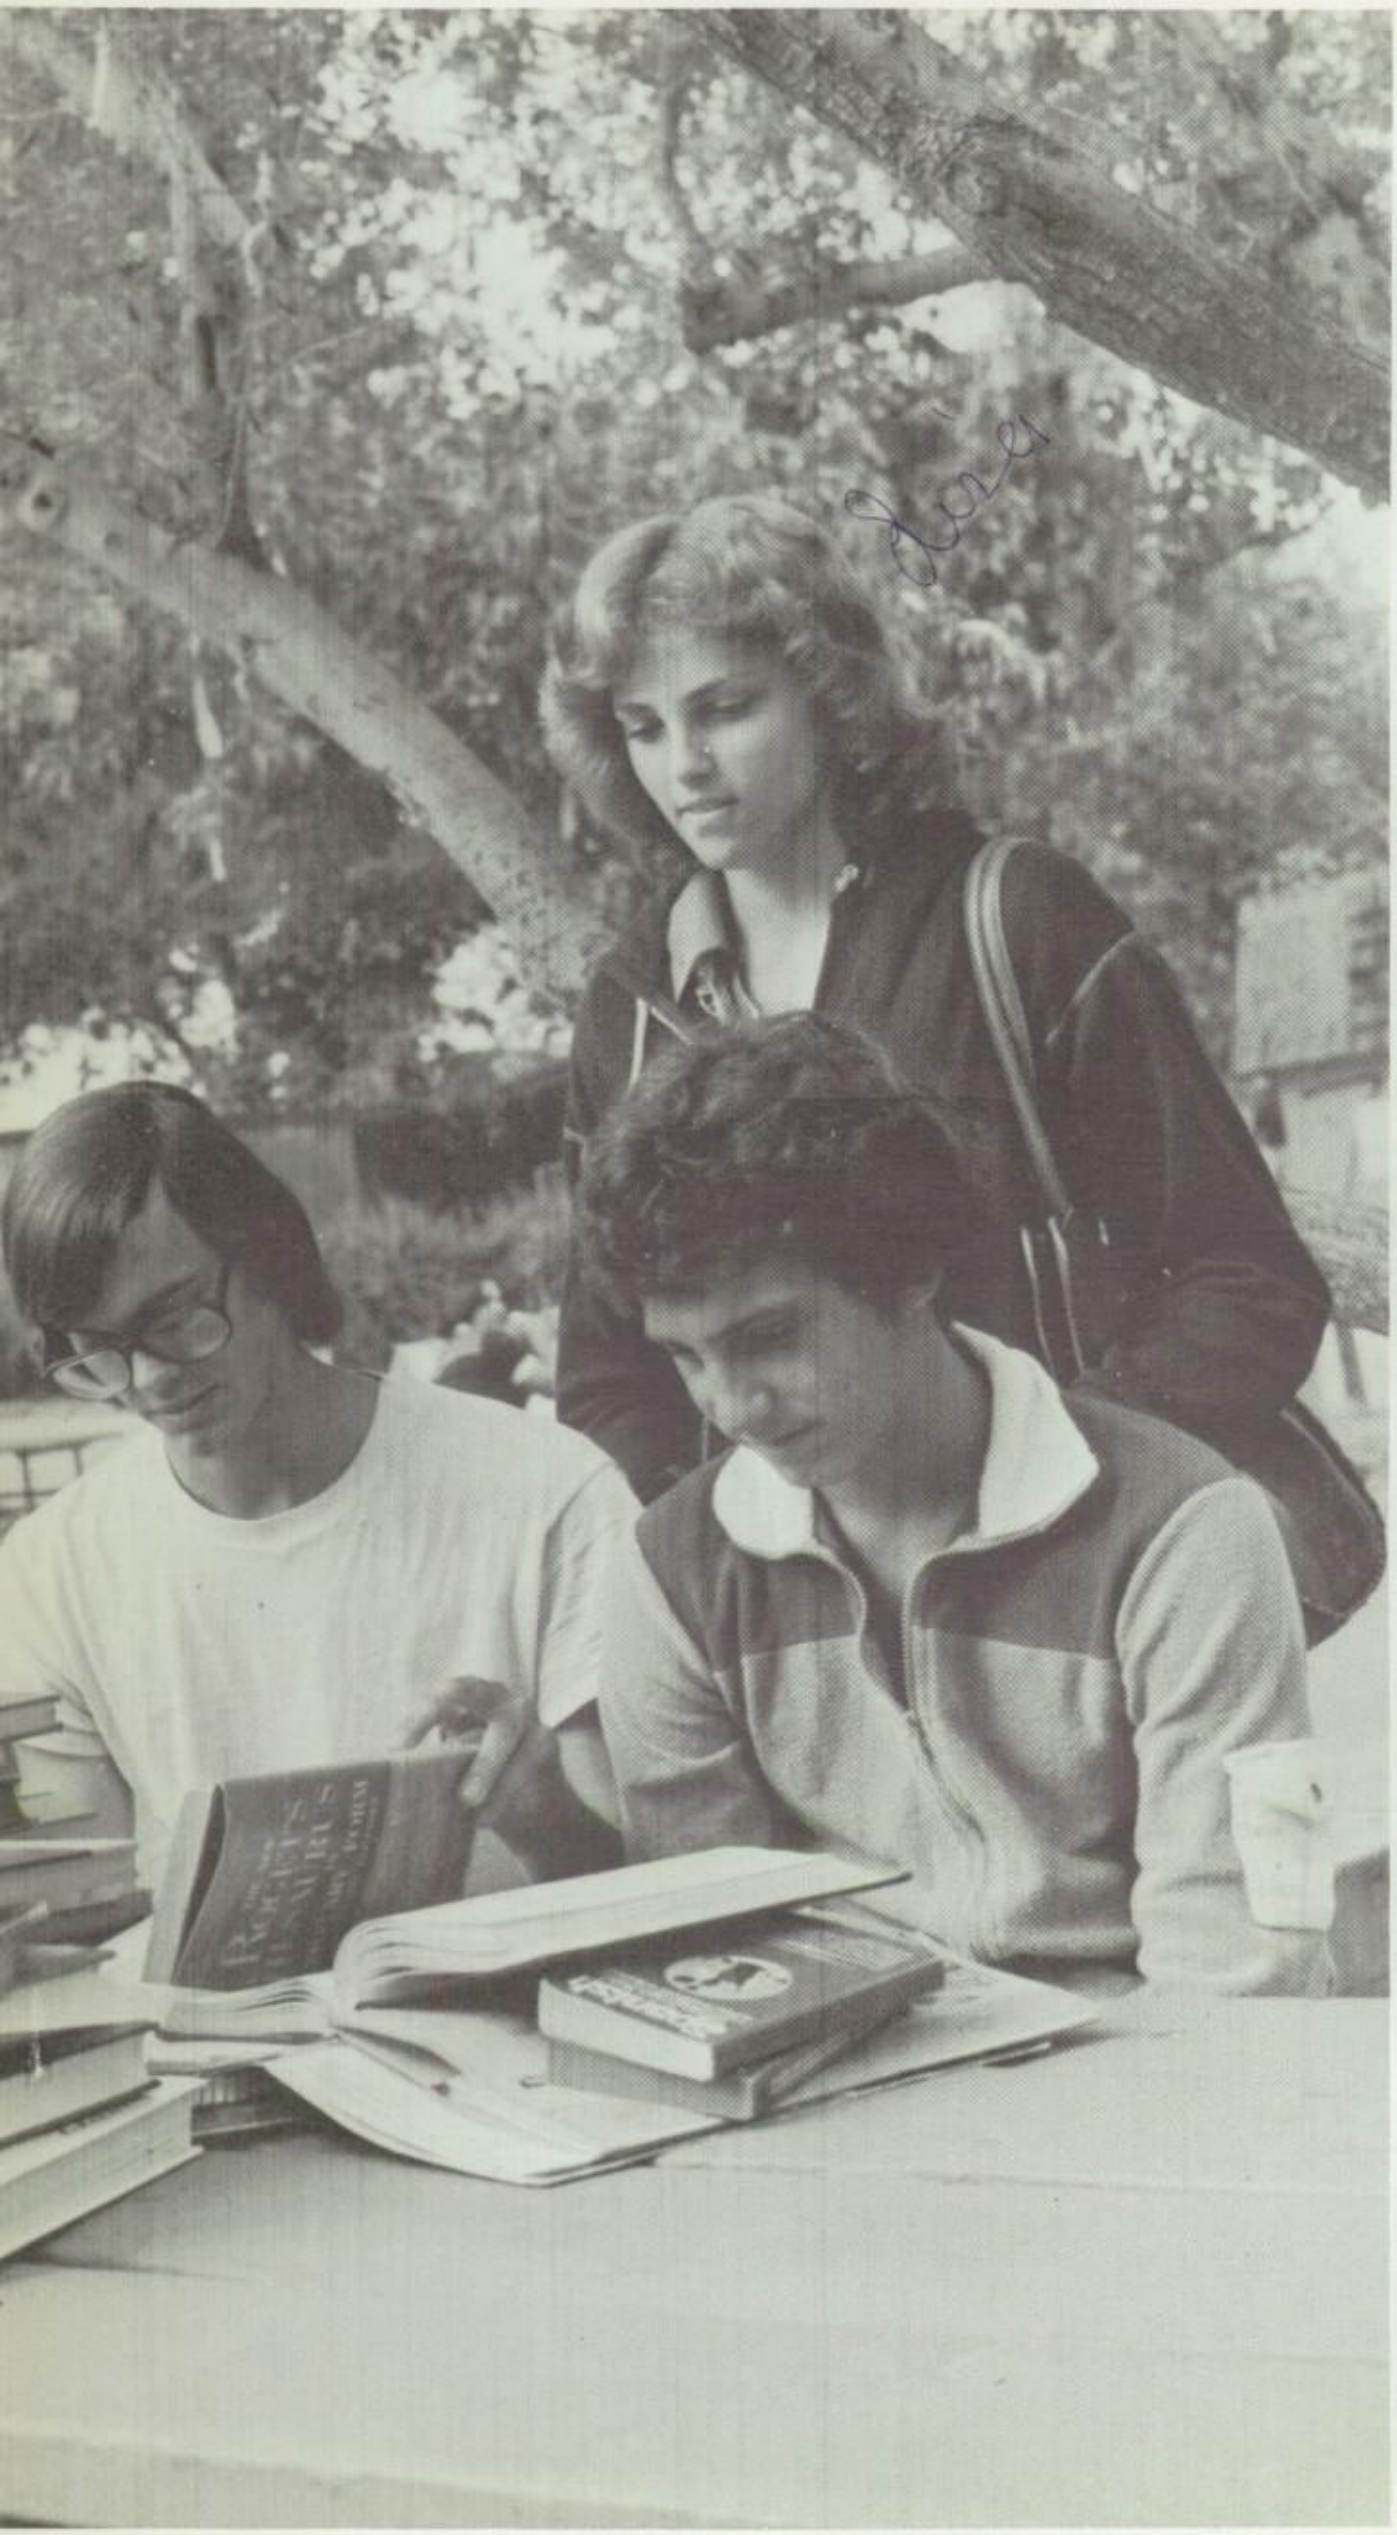
The Better Sex Takes It Again

This year, the sophomore offices were dominated completely by the females. Each, in their won way, added a special pazzaz to the office they held. And stuck together, making this year's sophomore class the best it's been in years.



2.

1. Besides being a terrific president, Annette was also very involved in music.
2. Vice President, Karen Ross, was a great asset to the gymnastics team.



2.

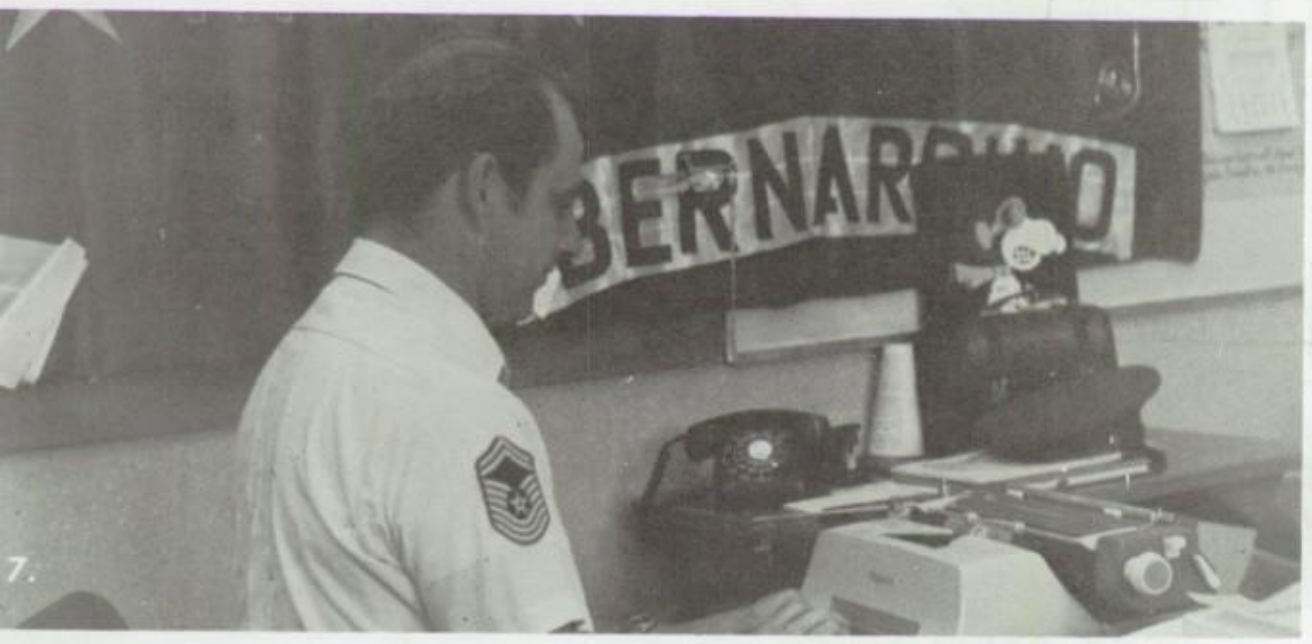
3.

4.

5.

6.

1. Being a 4.0 sophomore is a lot of hard work. (What fun!) — Larrie Schools, Lisa Cacka, and Greg Keseno.
2. Sophomores have many ambitions. Dana would like to be a Dental Hygienist.
3. To be a Biologist is Matt Topoleski's hope.
4. Hard at work is Miss Anderson.



7.

It Was Tough But We Made It

The sponsors of the Sophomore Class were given the job of providing worthy and active leadership. They were also very good teachers, for there were seven sophomores with 4.0 G.P.A.'s this year alone.

8.

5. Miss Tortarola is the head sponsor of the Sophomore Class, although she looks like she should be in high school.
6. Though small, Manuel Prado is smart and a hard worker.
7. Typing away is Sgt. Weiss. His pet frog keeps him company while he works.
8. Teaching is a lot of hard work, but Mr. Duden also finds time to be a Sophomore sponsor.
9. Eric Fox as seen in one of his well-dressed times.

Sophomores Had The Whitest Teeth And The Biggest Smiles

The happiest students on campus had to be the sophomore class. Since sophomores were not at the bottom of the pile anymore, they didn't have to worry about being stepped on by the seniors. The class of 80 seemed to have the most spirit and the widest smiles. Sophomores favorite activity was gossiping, and if that got boring they could always harass the nearest freshman.

15.

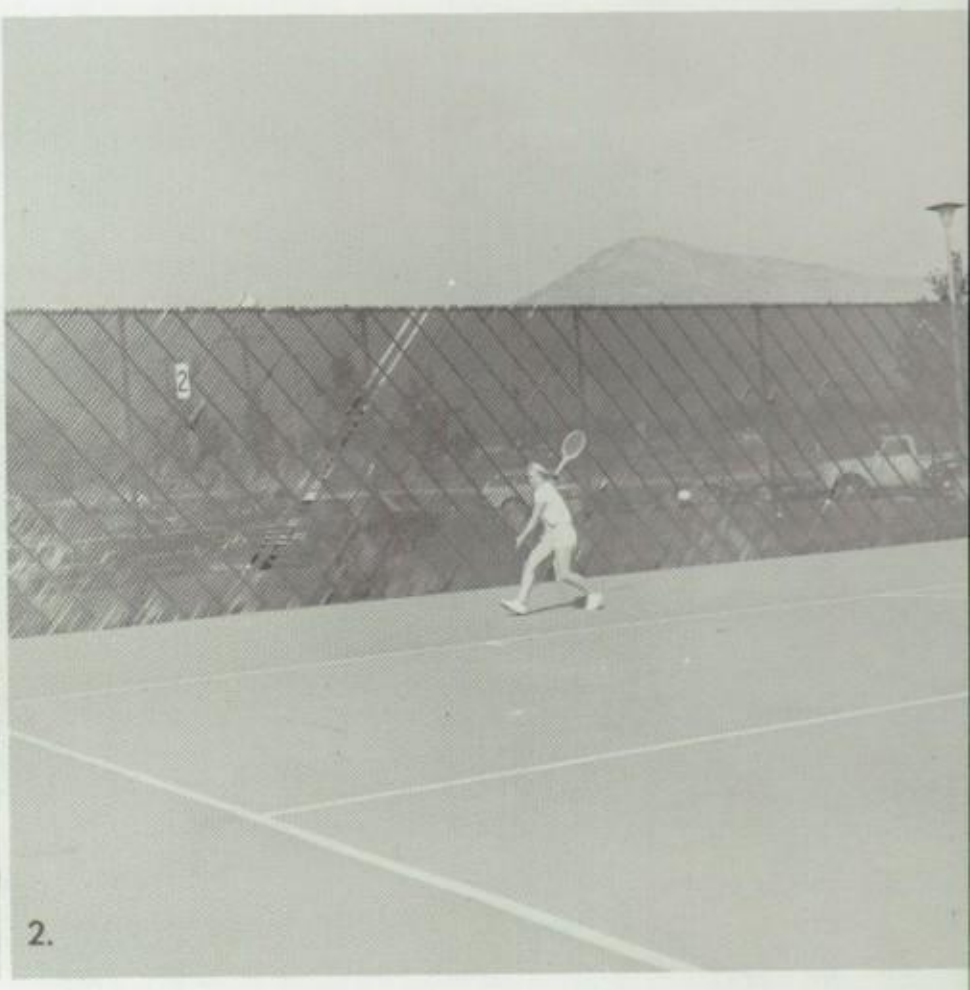
15. Tracy could always be seen with a smile; even while being choked by the charming Tommy Cobb.
16. Dress-up day proved fun for Linda Ingram.
17. "I've heard this story ten times," says Dee Dee, as Connie tells about her date last Friday night.

1. Lisa Ulmer was voted most valuable player on Pacific's girls' basketball team. Her dream is to go to the olympics . . .

2. Last year Carol Pat Christian helped girls' tennis team win C.B.L.
3. Tony Ramirez was one of the few sophomores who played on the Varsity Water Polo Team.

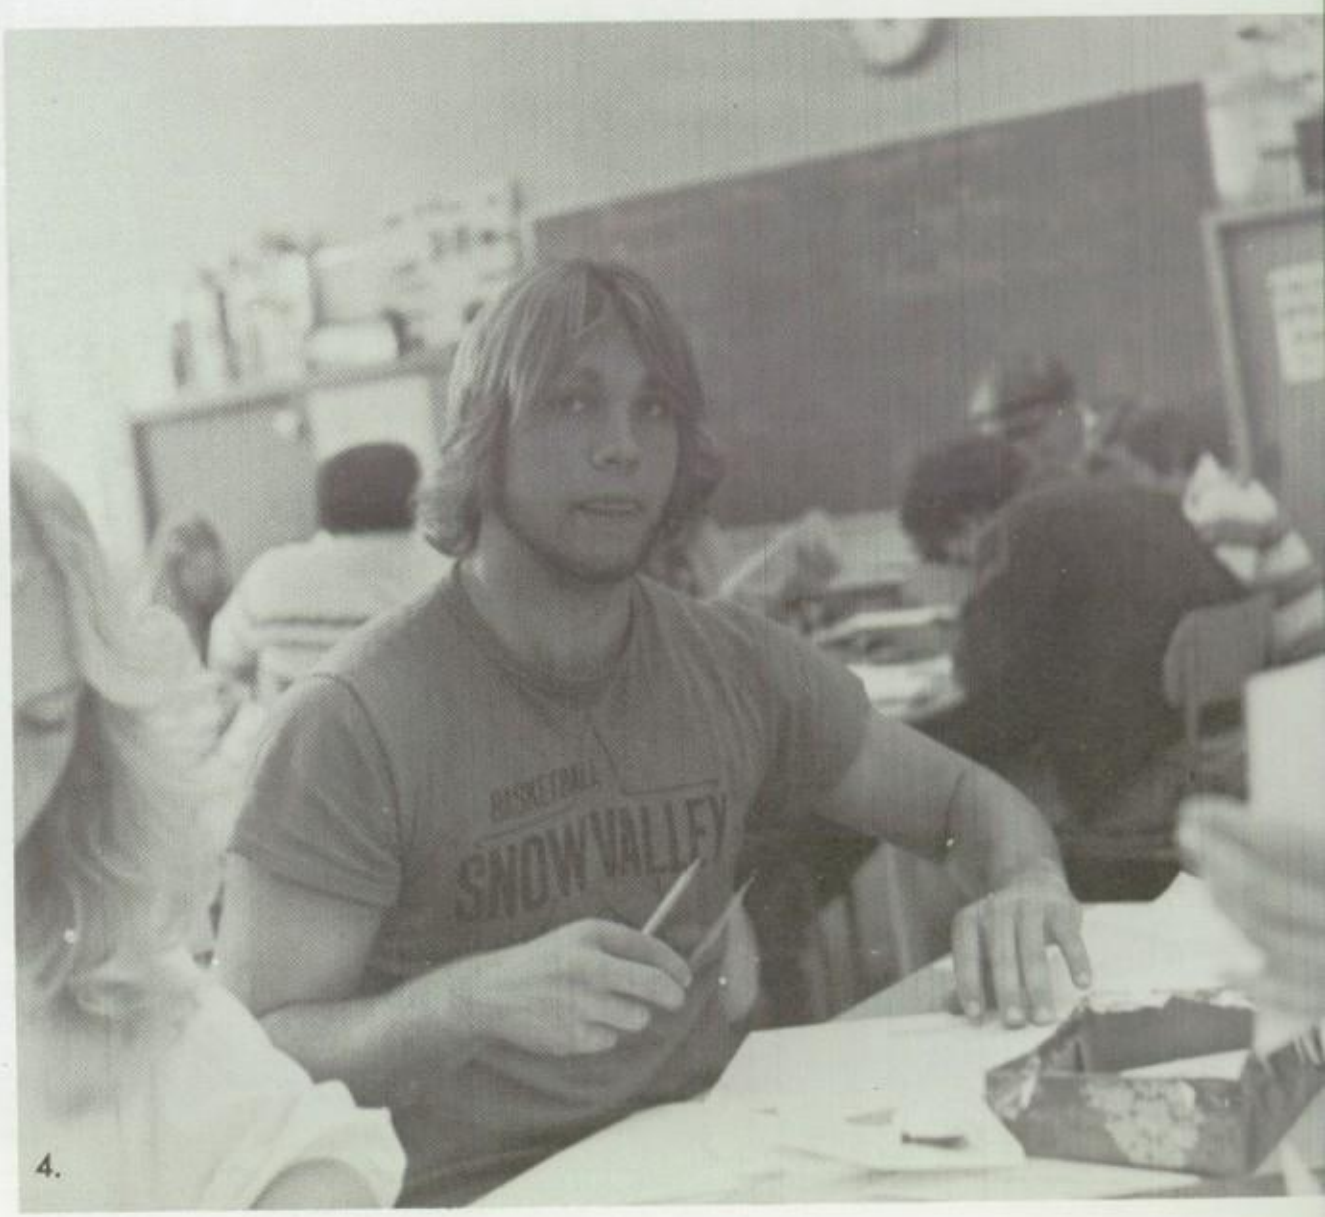
4. Sophomore Danny Dolan, who plays Varsity Football, is still trying to prove that football players have brains too.

1.



2.

3.



4.

Sophomores Carol Pat Christian, Lisa Ulmer, Tony Ramerez, and Danny Dolan exploit their talents in Pacific athletics. These four athletes were among the few sophomores that were picked for a varsity sport. Each one has his specialty, which is played in its own unique setting. It took a long time, but sophomores finally made it through the door to varsity sports.

1. The winters life is left untouched,
My dreams and hopes may mean as much.
I'll simply say that something's true.
Then suddenly, red turns to blue.
Snow does melt and rain runs out,
And so does life without a doubt.
So many wonder the reason why,
Some people stand and simply cry.
The people that they want impressed,
Are not here now and could care less.
But go on now and follow them,
Their chance for life is really slim.
Your identity's lost, you're one of the
crowd,
But isn't that what matters now?

The Beauty Of
A Darling Victory

To Stephanis Davis, just being nominated for Basketball Homecoming was enough. But as she and the other candidates were escorted down the middle of the gym that night, only one thing came to each of their minds. That was to become

the 1978 Basketball Sophomore
Darling. As the big moment came
closer and closer, each candidate
squeezed their escort's hand just a
little tighter. For this year's Sopho
more class, they had the Darling
Stephanis Davis to lead them on.

1. Being elected Sophomore Darling was a big experience, and made Stephanie Davis a proud and happy girl.
2. This year the Sophomore Darling candidates were Cindy Jones, Kathy Mendoza, Stephanie Davis, and Dee Morris.

Every year the Sophomore's hold their annual candy sale. The purpose of this sale is to raise money for the sophomore class activities. Prizes are rewarded for the top candy sellers and little gifts are given to the students just for participating. Some of the sophomores found selling candy very easy, some found it hard, but just trying made them feel good because they knew they were doing their share to help Pacific High School.

Sophomore Sociables

Before school, between classes, and at lunch, sophomores often fond time to socialize. Most of the time the sophomores would talk about their experiences, with the seniors cutting them down or maybe a freshman telling them off. Through all of this, the sophomores survived. In 1980, the sophomores will be the head honchos and and cut down their underclassmen. Good Luck!

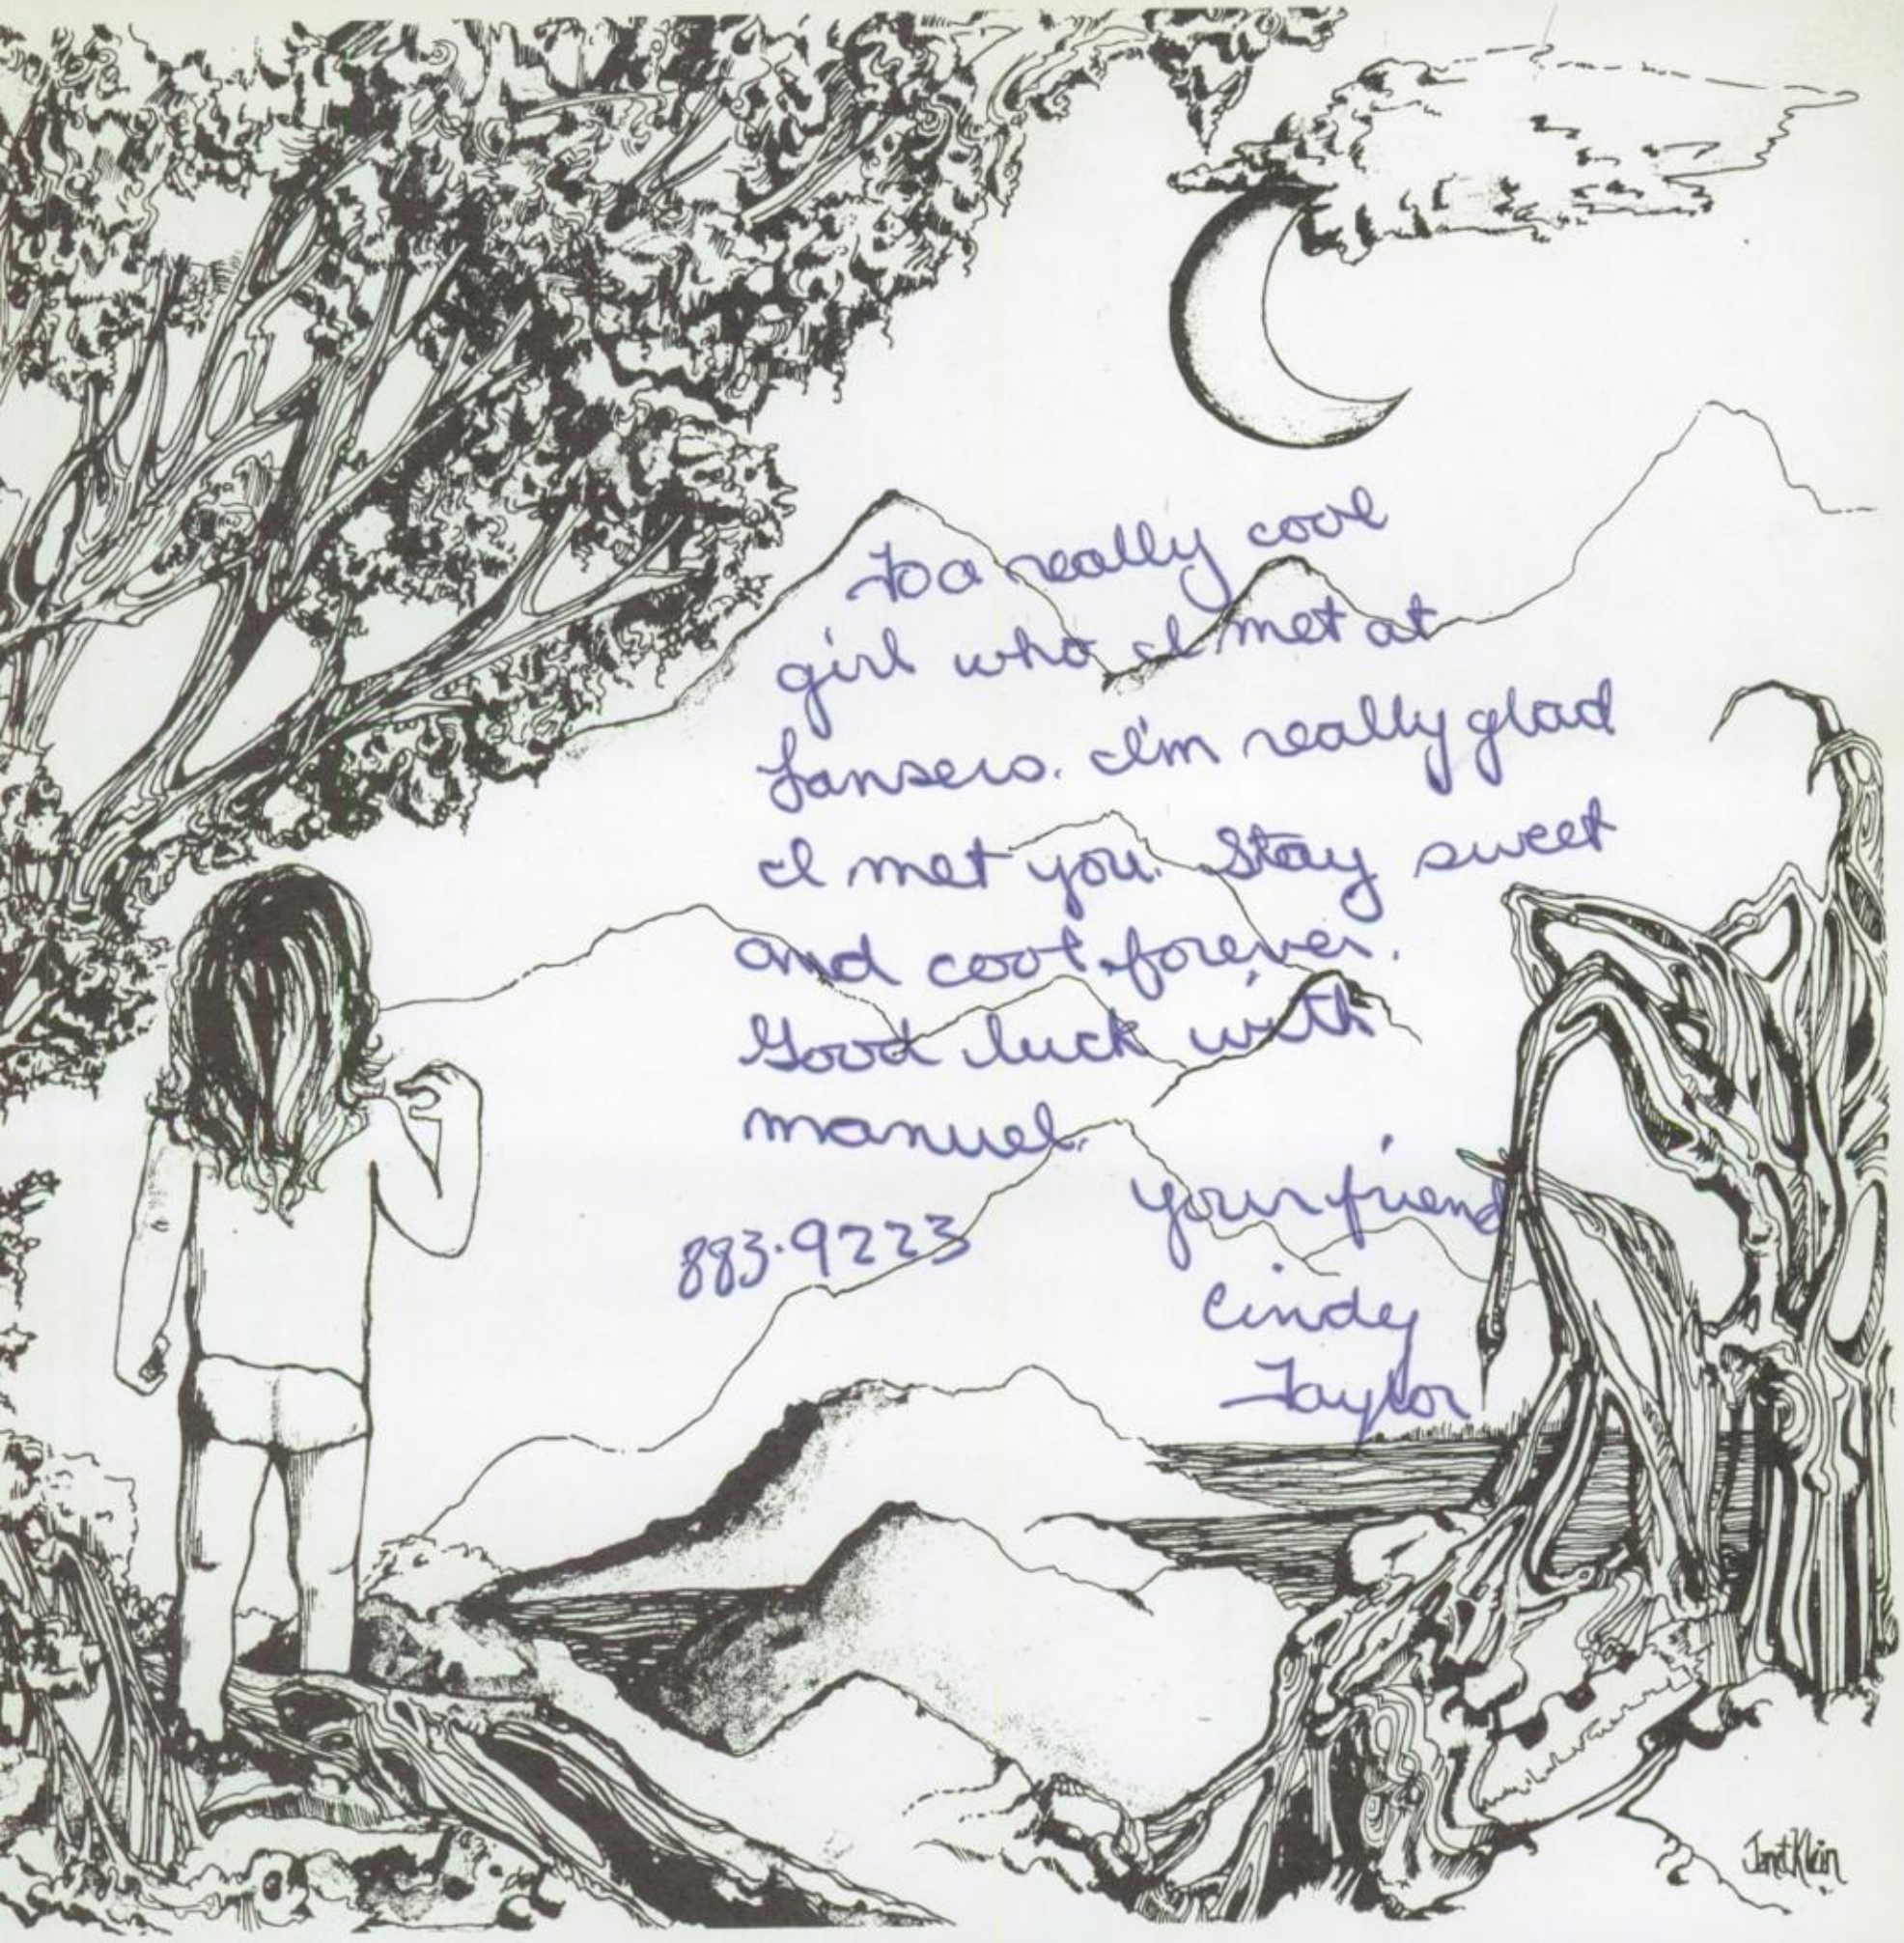
4. Being on cheers gave Tracy a chance to show her Sophomore pride.

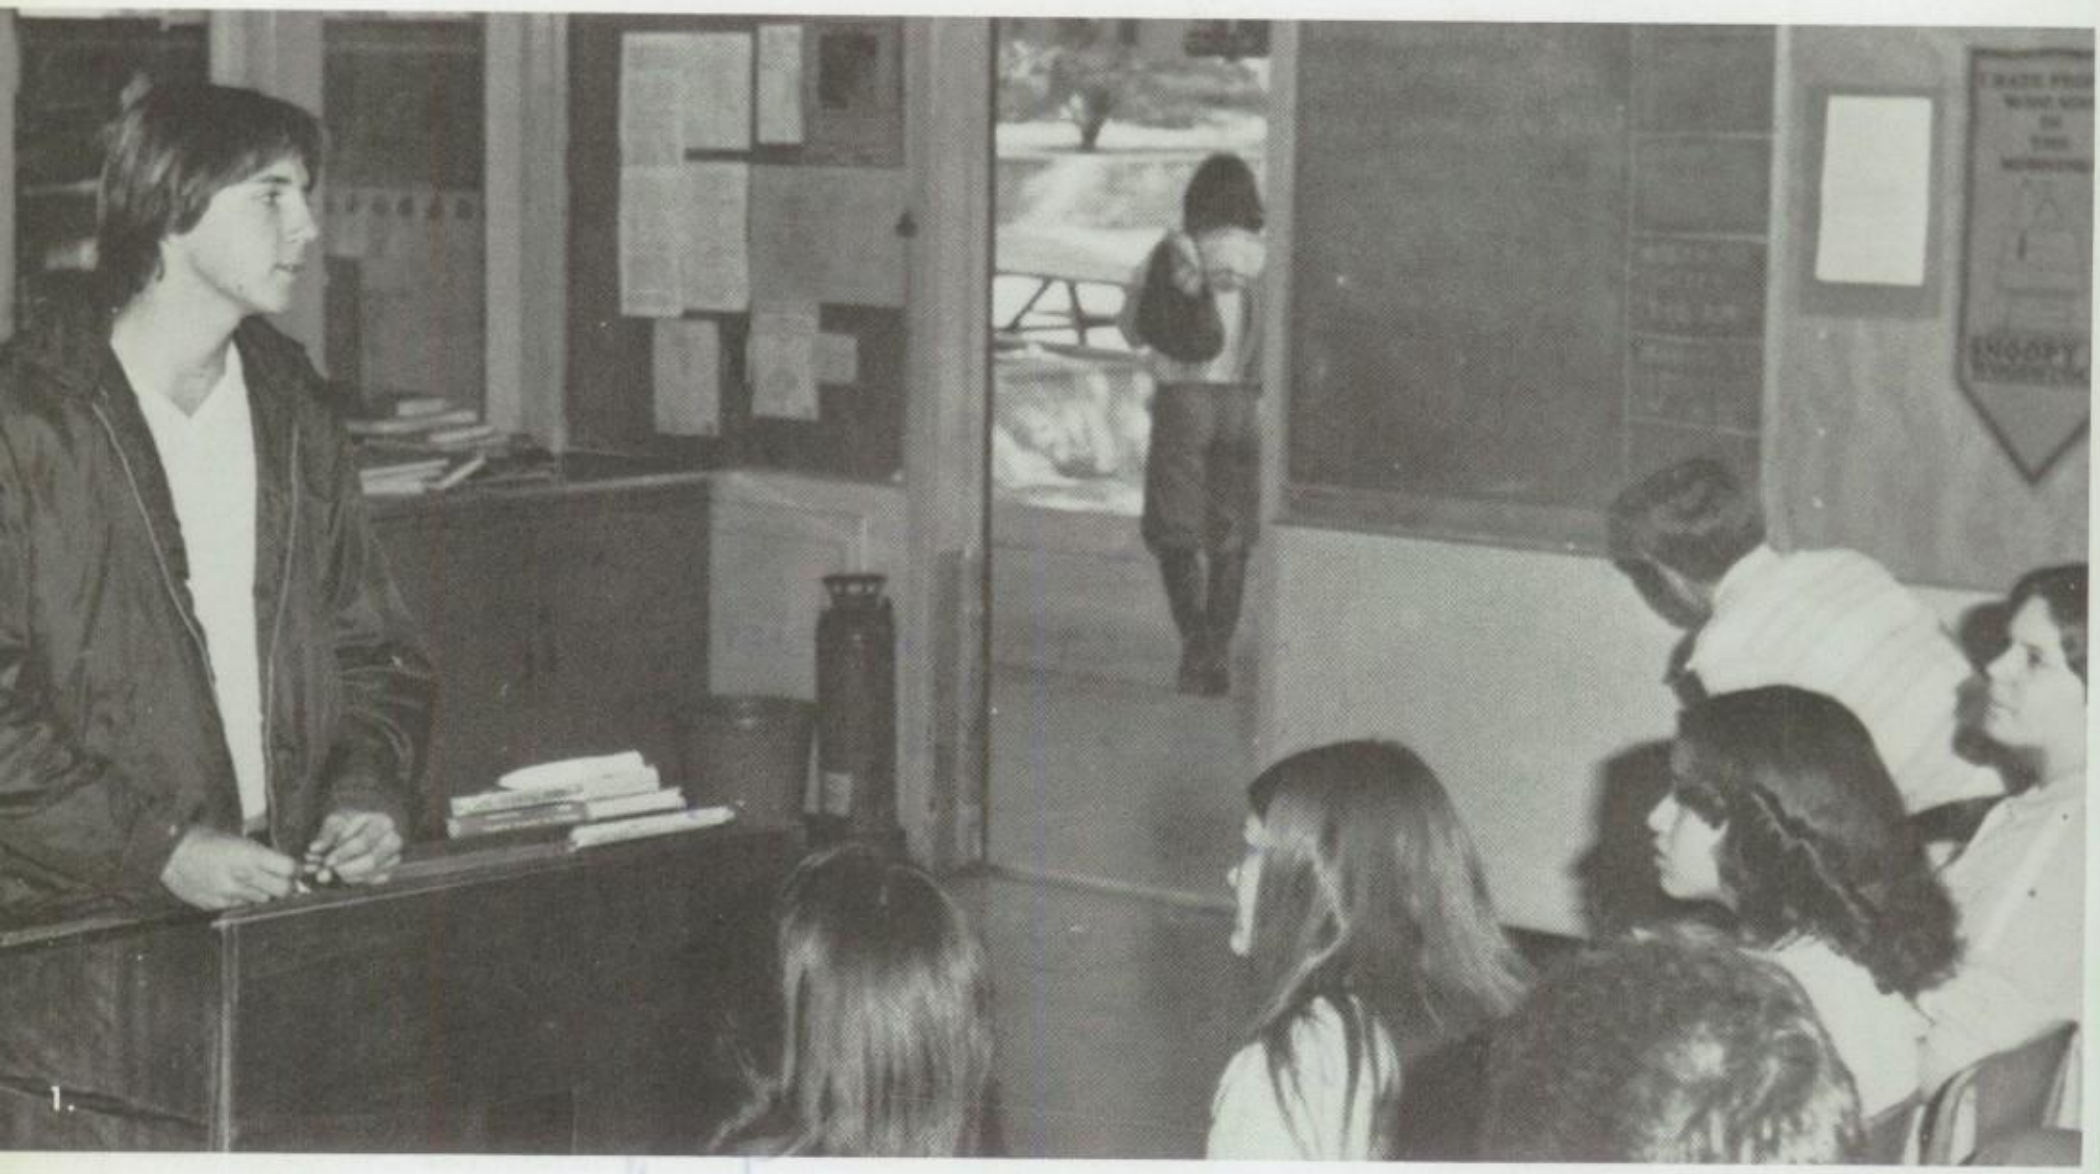


Clubs

SHERRIN LARSON
EDITOR

A club is a very much needed extra curricular activity at a high school. Besides being a social event, it is an extreme benefit to many people outside of school. Convalescent homes, Easter Seals, and the Heart Association are a few things that benefit from the few people who volunteer their time to get involved in the clubs at Pacific High School. These people who got themselves involved in any of the clubs are special people and were very seldom rewarded. You see, they are the best examples of leadership and spirit at P.H.S.

I.C.C. is made up of one representative from each club. Each representative is in charge of all the activities that are going on at the Pacific campus. Their jobs are to make sure everything going on in the clubs is legal. They are also in charge of organizing sales and any other way to make money.



1. As president of I.C.C., Noel Hankla gives his weekly report on the school's activities.
2. As members of I.C.C., Kirby Kammer and Stephanie Miller often found a lot to talk about.

There's More To Clubs Than Just Work

Have you ever wondered what goes on in the clubs at Pacific? Of course, carwashes, bakesales, but as you saw all year, that wasn't all there was to being in a club. Z-club put on a very special petitioners tea and Lehis will never give up their "Gong Show," and Steiners had their fun too. If you had been a part of one, you would have had a lot of good times you'll never forget.

Just because Lehis hasn't been here for a whole 25 years, didn't make them any less important. Lehis did a lot this year to help those who couldn't help themselves. The best thing about it was that they always remembered what they stood for in every thing they did. To Let Every Heart Inspire Service.

Lehis

In the past it was believed that Dantes was just a club to get into if you wanted to have a little action. But they have really slowed down; just to show everyone what they are made of. Of course, they had fun, but in ways in which they could help others. The Dantes started out, 25 years ago, with a membership of 29 now it's 50. Keep up the good work.

Being a club for 25 years, ntes knew what it took to build a nning float. At this years' half- ne ceremonies of the homecom- g football game, all the clubs ought out their floats. Dantes took Sweepstakes, and the Freshmen surprised everyone by taking 1st place. Lehis took 2nd, with Band right on their heels with a third. The ROTC made their debut by winning 4th.

Freshmen

PRISCILLA BARTON
EDITOR

Being a Freshman at Pacific High is a pretty big thrill for those students who got to leave Junior high early. Being able to associate with the 'big school crowd' helps them to cope with their problems a little better, besides helping them to grow up mentally, faster. The change is a big one, but a fun one, because of the many more students and activities they can become involved with. They find out what is to be expected of them through high school and after graduation, before anyone else. Thanks for being here and being Freshmen.

1. Would you ever believe this is the President of the Freshmen class.

2. Besides being Vice Pres. September Wyatt likes to take it easy.

You Can Make It Happen

The freshmen and sophomore classes are really moving up. They now have their own class officers and sponsors. A lot of us may have thought the Frosh Classes didn't have it in them, but obviously they did.

1. Besides helping her class, Mrs. Sztaray also helped individuals.
2. As Mrs. Gould makes vocabulary words for her class, she also learns a little herself.
3. By the look on Mr. Calles face, his class just didn't *understand* the assignments.

1. "Can I have your attention please," said Mike Williams, "I'd like to introduce my girlfriend."

Annette
Good luck in everything you may do in the many years to come
I'll see you next year in band. Keep in touch
Have a great summer
Your friend Darla Barton

Baldwin

To Annette,
who still has
one of my medals.
Maybe next year
you will give it
back to me.

We, the Editors of the 1977-1978 Pacificana Annual, hope that you enjoy this book. We spent millions of hours of our precious time staying after school putting it together. Of all the schools throughout the country, our book was chosen by the publishing company as one of the most outstanding books in the nation, and will be used as a salesmen's sample.

We think we did a superb job and we don't care if you like it or not!!

Through rain, snow, sleet or hail, we never failed to meet our deadline; because we knew that if we didn't, 'The Man' would slit our throats.

During it all, we had 2 great parties, 6 copy deadlines, 2548 rotten moods from Mr. Nielsen and 4 good moods from Mr. Nielsen, and his new image, 56 extra pages, 4978 lost pictures, 89 blank rolls of film, 2 traffic tickets, 1 court appearance, 1 lost editor, and 1 lost staff, 1 found editor, and 1 found staff, skaity-eight million hours of waiting for pictures, 1 concussion, 40 days and 40 nights of working after school, 6 engagements, 80 cases of camera confusion, 6 lousy typewriters, 6000 cries, 424 returned pages, 2 new pica rulers, 5 destroyed pica rulers, 1 fake fight, 690 trips to Crowells, 960 fake trips to Crowells, 960 trips to Del Taco, one 25 year reunion, 92 late annual threats. But somehow we managed to get this huge annual out in time. Now all we want to do is retire and rest our weary bods.

And if after reading the results of our efforts, you have any complaints at all no matter how large or how small,

We have only one thing to say, that's TUFF!!!!!!!!!
